DRAFT

1. Pursuant to 10 U.S.C 2304 (c) (1) as implemented in FAR 6.302-1, the subject contract is hereby modified to incorporate the preliminary design activities of the Presidential Aircraft Recapitalization (PAR).

2. The change identified in paragraph 1 above results in an increase of \$xxxxxxx to the total contract price and an increase of \$yyyyyyyyy to the total amount obligated.

3. As a result of the above paragraphs, the contract is specifically modified as follows:

**a. Section A, Cover Page, SF 26**, Block 15g, the Total Contract Price is changed from \$x to \$y, an increase of \$z.

**b. Section B, Supplies and Services**, is changed as follows:

(1) CLINs 0004, 0301, 0302, and 0303 are established as follows:

ITEM	SUPPLIES OR SERVICES	Qty Purch Unit	Unit Price Total Item Amount
<b>0004</b>	CLIN Establish		EST \$0.00
	<i>Noun:</i> PAR PRELIMINARY DESIGN		
	<i>PSC:</i> 1510		
	<i>Contract type:</i> U - COST PLUS FIXED FEE		
	<i>Start Date:</i> ASREQ		
	<i>Completion Date:</i> ASREQ		
	<i>Descriptive Data:</i>		
	The Contractor shall conduct all required efforts for successful completion of PAR Preliminary Design in accordance with Performance Work Statement (PWS) entitled "PWS for the Preliminary Design of the PAR Program," Atch 5, dated 5 Jan 16.		
	Proposal preparation costs for PAR Preliminary Design are considered an allowable cost under this contract and are included in the CLIN price.		
<b>0301</b>	CLIN Establish	1 Lot	NSP NSP
	<i>Noun:</i> PRELIMINARY DESIGN DATA EXHIBIT B

	<i>Noun:</i> TECHNICAL DATA PACKAGE EXHIBIT D					
0303		1	U			ASREQ
	<i>Noun:</i> CLASSIFIED PRELIMINARY DESIGN DATA EXHIBIT E <i>Descriptive Data:</i> The Contractor shall deliver the Classified PDR data as required.					

**e. Section G, Contract Administration Data**, is changed as follows:

**f. Section H, Special Contract Requirements**, is changed to include the following clauses:

## **AFLCMC/WLJK H091 FEDERAL AVIATION ADMINISTRATION REQUIREMENTS AND CERTIFICATES**

### **1. FAA Certificates**

a. The Contractor shall obtain and deliver/furnish to the Government from the Federal Aviation Administration (FAA):

- (i) Supplemental Type Certificate(s) (STC), FAA Form 8110-2, issued pursuant to Part 21 of the Federal Aviation Regulations for the aircraft covered by this Agreement,
- (ii) Parts Manufacturing Authority (PMA), if/as applicable, for the aircraft and its components covered by this Agreement,
- (iii) FAA Form 8130-31, Statement of Conformity - Military Aircraft, which will be prepared during development, and provided to the Government with delivery of each aircraft, to document all Government-approved non-conformities with the FAA-approved type design,
- (iv) Standard Airworthiness Certificate (FAA Form 8100-2), authorization allowing for the operation of type certified aircraft,
- (v) Special Airworthiness Certificate (FAA Form 8130-7) in the experimental category, issued to operate an aircraft that does not conform to its type certificate and is in a condition for safe operation.

### **2. FAA Certification Project(s) for Military Commercial Derivative Aircraft (MCDA)**

a. The Contractor recognizes the Government as the Technical Airworthiness Authority for the PAR aircraft system. The Contractor further recognizes the Government's need to participate in the FAA certification process to maintain continuity of the flight safety requirements. To attain that goal, the Contractor shall involve the Government as an interested third party throughout all phases of the

project from conceptual design, requirements definition, establishment of the certification basis, and compliance planning through modification design, conformity, implementation, test planning, and post-certification activities.

b. The Contractor shall invite the Government to all FAA project type certification board (TCB) meetings (e.g. Preliminary, Interim, Pre-Flight Type Board, Final Type Board, etc); Contractor shall provide minutes of TCB meetings to the Government.

c. The Contractor shall notify and keep the Government apprised of certification project correspondence and include the Government in FAA certification and coordination meetings as an observer.

d. The Contractor shall deliver to the Government, the Contractor's certification process documents, including but not limited to:

Certification Program Plan (CPP)

Application for STC (FAA Form 8110-12)

Certification Plan

Approved Certification Basis

Compliance Checklist

Certification plan worksheets

Issue Papers

Type Inspection Authorization (TIA) (FAA Form 8110-1)

Supplemental Type Inspection Report (FAA Form 8110-26)

Statements of Conformity (FAA Forms 8100-1 and 8130-9)

Note: The Contractor shall propose alternate means of data delivery and access where practicable for certification program management.

### 3. FAA-Required Changes

a. If changes are made to the aircraft, data relating to the aircraft, or testing of the aircraft in order to obtain type certification, such changes will be made prior to delivery of each aircraft.

b. The Contractor will bear the cost (material and labor) of incorporating all changes to the aircraft (terminating action or Alternative Method of Compliance (AMOC), subject to Government approval) resulting from Airworthiness Directives issued by the FAA, or equivalent issued by the appropriate foreign civil aviation authority, prior to final delivery of the post-EMD aircraft by the Contractor to the Government.

### 4. Delays

If delivery of an aircraft is delayed due to the incorporation of a FAA required change, and prior approval has been obtained from the Contracting Officer, the contractual delivery date of the aircraft will be appropriately revised to reflect such delay by mutual agreement of the Parties.

### 5. FAA Production Oversight

The production facilities of the aircraft Contractor and the engine subcontractor shall be Federal Aviation Administration (FAA) approved in compliance with 14 CFR 21 (FAR Part 21). Compliance is evidenced by the Production Certificate and the approvals of the designated FAA representatives. The Contractor's manufacturing and quality systems shall be under the cognizance of the FAA and shall be monitored as necessary to meet FAA requirements for civil aircraft production. The Contractor shall also clearly identify any delegations between certification agencies for purposes of validation of design, cognizance over facilities, and approval of travelled certification work.

### 6. FAA Design Approval Holder Obligations

The Contractor (and subcontractors) shall maintain design approval holder obligations in accordance with 14 CFR Part 21 as related to holders of a Type Certificates, Supplemental Type Certificates, Parts Manufacturer Approvals, and Technical Standard Order authorizations (or the licensee of any Type Certificate).

#### 7. FAA Organization Delegation Authority (ODA)

The Contractor's process to perform type design changes and approvals via delegations shall be approved in accordance with 14 CFR Part 183. Compliance is evidenced by the approved delegation authority, procedures manual, and Certificates of Authorities.

#### 8. FAA Repair Station Oversight

The modification facilities of the Contractor and subcontractors shall be FAA approved in compliance with 14 CFR Part 145. Compliance is evidenced by the Repair Station Certificate, Operations Specification, and Procedures/Quality Manuals. The Contractor's quality systems shall be under cognizance and surveillance of the FAA. The Contractor shall clearly identify delegations between certification agencies (e.g. FSDO and MIDO-delegated to ODA UMs)

9. Nothing in this clause, entitled "AFLCMC/WLJK H091 Federal Aviation Administration Requirements and Certificates," relinquishes or limits the rights of the government set forth in FAR 52.246-3 (Inspection of Supplies-Cost Reimbursement), DFARS 246.2 (Contract Quality Requirements), or 252.228-7001 (Ground and Flight Risk).

### **AFLCMC/WLJK H092 CERTIFICATION OF MISSION EQUIPMENT, FUNCTIONALITY, AND SOFTWARE**

The Contractor shall obtain and maintain FAA type certification of the aircraft and modifications covered by this contract, including mission equipment installations, software, integration, and functionality. Certain mission equipment functions may not be fully FAA approved and will therefore constitute a non-conformity with the aircraft's FAA approved Type (or Supplemental Type) Design. The approval level for these items must be defined per FAA Order 8110.101A.

The request for authority to install and certify such equipment shall be submitted to the USAF and the FAA Military Certification Office for approval of items which cannot be found compliant to 14 CFR requirements prior to Preliminary Design Review (PDR), or if necessary, no later than 60 days after PDR, for review and approval by the FAA and USAF. These items or functions shall be acknowledged and incorporated into the FAA project(s) and USAF certification basis and listed on FAA Form 8130-31. The request shall include a clear description of the reason the system cannot be found compliant to 14 CFR, rationale for the proposed certification basis and compliance to safety risk assessment, an assessment on the ability of FAA certifiable design alternatives to fulfill specification requirements, and a FAA statement on why the design cannot be certified per FAA Order 8110.101A (including, as applicable, through FAA Equivalent Level of Safety Finding or Special Conditions). The request shall also include the proposed activities and results of an analysis and/or test to ensure the functions/installations do not interfere with essential aircraft systems and will meet USAF airworthiness certification requirements.

All equipment and/or functionality not found compliant to FAA regulations must be evaluated for compliance to certification criteria in MIL-HDBK-516C per the USAF airworthiness process. The Contractor shall obtain FAA certification of the provisions and installation (e.g., structural mount, wiring, brackets, cooling) for such equipment. In cases where the FAA approves "provisions only" for equipment or furnishings installations, the Contractor shall include a complete Interface Control Document (ICD) to include all structural, mechanical, electrical, environmental, EMI, EMP and any other critical interfaces relating to the non-FAA approved equipment, appliance, or furnishing. The resulting ICD shall define the FAA approved limitations associated with the USAF approved installations.

[End Clause]

**g. Section I, Contract Clauses**, is changed as follows:

(1) Section I, clauses incorporated by reference is changed as follows:

a. Paragraph A, Federal Acquisition Regulation Contract Clauses incorporated by reference, is changed to add the following clauses:

**FAR 52.227-21 TECHNICAL DATA DECLARATION, REVISION, AND WITHHOLDING OF PAYMENT - MAJOR SYSTEMS (MAY 2014)**

**FAR 52.239-01 PRIVACY OR SECURITY SAFEGUARDS (AUG 1996)**

**FAR 52.243-06 CHANGE ORDER ACCOUNTING (APR 1984)**

**FAR 52.248-01 VALUE ENGINEERING (OCT 2010)**

b. Paragraph B, Defense Federal Acquisition Regulation Supplement Contract Clauses incorporated by reference, is changed as follows:

**DFARS 252.211-7008 USE OF GOVERNMENT ASSIGNED SERIAL NUMBERS (SEP 2010)**

**DFARS 252.225-7004 REPORT OF INTENDED PERFORMANCE OUTSIDE THE UNITED STATES AND CANADA--SUBMISSION AFTER AWARD (OCT 2010)**

**DFARS 252.239-7018 SUPPLY CHAIN RISK (NOV 2013)**

**DFARS 252.242-7004 MATERIAL MANAGEMENT AND ACCOUNTING SYSTEM (MAY 2011)**

**DFARS 252.211-7007 REPORTING OF GOVERNMENT-FURNISHED PROPERTY (AUG 2012)**

**DFARS 252.246-7001 WARRANTY OF DATA - BASIC (MAR 2014)**

c. Paragraph C, Air Force Federal Acquisition Regulation Supplement Contract Clauses incorporated by reference, is changed to add the following clause:

**AF 5352.204-9000 NOTIFICATION OF GOVERNMENT SECURITY ACTIVITY AND VISITOR GROUP SECURITY AGREEMENTS (APR 2015)**

2. Section II, clauses incorporated in full text, Paragraph B, Defense Federal Acquisition Regulation Contract Clauses in Full Text, is changed to include the following clause:

**252.211-7003 Item Unique Identification and Valuation (DEVIATION) (NOV 2015)**

(a) *Definitions.* As used in this clause-

"Automatic identification device" means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

"Concatenated unique item identifier" means-

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order

of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

"Data matrix" means a two-dimensional matrix symbology, which is made up of square or, in some cases, round modules arranged within a perimeter finder pattern and uses the Error Checking and Correction 200 (ECC200) specification found within International Standards Organization (ISO)/International Electrotechnical Commission (IEC) 16022.

"Data qualifier" means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

"DoD recognized unique identification equivalent" means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at [http://www.acq.osd.mil/dpap/pdi/uid/iuid\\_equivalents.html](http://www.acq.osd.mil/dpap/pdi/uid/iuid_equivalents.html).

"DoD item unique identification" means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original part, lot, or batch number; and the serial number. "Enterprise" means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

"Enterprise identifier" means a code that is uniquely assigned to an enterprise by an issuing agency.

"Government's unit acquisition cost" means-

(1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;

(2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery; and

(3) For items produced under a time-and-materials contract, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery.

"Issuing agency" means an organization responsible for assigning a globally unique identifier to an enterprise (i.e., Dun & Bradstreet's Data Universal Numbering System (DUNS) Number, GS1 Company Prefix, Allied Committee 135 NATO Commercial and Government Entity (NCAGE)/ Commercial and Government Entity (CAGE) Code, or the Coded Representation of the North American Telecommunications Industry Manufacturers, Suppliers, and Related Service Companies (ATIS-0322000) Number), European Health Industry Business Communication Council (EHIBCC) and Health Industry Business Communication Council (HIBCC)), as indicated in the Register of Issuing Agency Codes for ISO/IEC 15459, located at

<http://www.nen.nl/Normontwikkeling/Certificatieschemas-en-keurmerken/Schemabeheer/ISOIEC-15459.htm> under "Register."

"Issuing agency code" means a code that designates the registration (or controlling) authority for the enterprise identifier.

"Item" means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

"Lot or batch number" means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

"Machine-readable" means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

"Original part number" means a combination of numbers or letters assigned by the enterprise at item creation to a class of items with the same form, fit, function, and interface.

"Parent item" means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

"Serial number within the enterprise identifier" means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

"Serial number within the part, lot, or batch number" means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

"Serialization within the enterprise identifier" means each item produced is assigned a serial number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

"Serialization within the part, lot, or batch number" means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

"Type designation" means a combination of letters and numerals assigned by the Government to a major end item, assembly or subassembly, as appropriate, to provide a convenient means of differentiating between items having the same basic name and to indicate modifications and changes thereto.

"Unique item identifier" means a set of data elements marked on items that is globally unique and unambiguous. The term includes a concatenated unique item identifier or a DoD recognized unique identification equivalent.

"Unique item identifier type" means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at

[http://www.acq.osd.mil/dpap/pdi/uid/uii\\_types.html](http://www.acq.osd.mil/dpap/pdi/uid/uii_types.html).

(b) The Contractor shall deliver all items under a contract line, subline, or exhibit line item.

(c) *Unique item identifier.*

(1) The Contractor shall provide a unique item identifier for the following:

(i) Delivered items for which the Government's unit acquisition cost is \$5,000 or more, except for the following line items:

Contract Line, Subline, or

Exhibit Line Item Number Item Description

CLIN 0002, CLIN 0003 for which commercial markings are acceptable

(ii) Items for which the Government's unit acquisition cost is less than \$5,000 that are identified in the Schedule or the following table:

Contract Line, Subline, or

Exhibit Line Item Number Item Description

\_N/A for CLIN 0002, CLIN 0003

*(If items are identified in the Schedule, insert "See Schedule" in this table.)*

(iii) Subassemblies, components, and parts embedded within delivered items, items with warranty requirements, DoD serially managed reparables and DoD serially managed nonreparables as specified in Attachment Number N/A.

(iv) Any item of special tooling or special test equipment as defined in FAR 2.101 that have been designated for preservation and storage for a Major Defense Acquisition Program as specified in Attachment Number N/A.

(v) Any item not included in (i), (ii), (iii), or (iv) for which the contractor creates and marks a unique item identifier for traceability.

(2) The unique item identifier assignment and its component data element combination shall not be duplicated on any other item marked or registered in the DoD Item Unique Identification Registry by the contractor.

(3) The unique item identifier component data elements shall be marked on an item using two dimensional data matrix symbology that complies with ISO/IEC International Standard 16022, Information technology - International symbology specification - Data matrix; ECC200 data matrix specification.

(4) *Data syntax and semantics of unique item identifiers.* The Contractor shall ensure that-

(i) The data elements (except issuing agency code) of the unique item identifier are encoded within the data matrix symbol that is marked on the item using one of the following three types of data qualifiers, as determined by the Contractor:

(A) Application Identifiers (AIs) (Format Indicator 05 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology - EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(B) Data Identifiers (DIs) (Format Indicator 06 of ISO/IEC International Standard 15434), in accordance with

ISO/IEC International Standard 15418, Information Technology - EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(C) Text Element Identifiers (TEIs) (Format Indicator 12 of ISO/IEC International Standard 15434), in accordance with the Air Transport Association Common Support Data Dictionary; and

(ii) The encoded data elements of the unique item identifier conform to the transfer structure, syntax, and coding of messages and data formats specified for Format Indicators 05, 06, and 12 in ISO/IEC International Standard 15434, Information Technology - Transfer Syntax for High Capacity Automatic Data Capture Media.

*(5) Unique item identifier.*

(i) The Contractor shall-

(A) Determine whether to-

(1) Serialize within the enterprise identifier;

(2) Serialize within the part, lot, or batch number;  
or

(3) Use a DoD recognized unique identification equivalent (e.g. Vehicle Identification Number);  
and

(B) Place the data elements of the unique item identifier (enterprise identifier; serial number; DoD recognized unique identification equivalent; and for serialization within the part, lot, or batch number only: original part, lot, or batch number) on items requiring marking by paragraph (c)(1) of this clause, based on the criteria provided in MIL-STD-130, Identification Marking of U.S. Military Property, latest version;

(C) Label shipments, storage containers and packages that contain uniquely identified items in accordance with the requirements of MIL-STD-129, Military Marking for Shipment and Storage, latest version; and

(D) Verify that the marks on items and labels on shipments, storage containers, and packages are machine readable and conform to the applicable standards. The contractor shall use an automatic identification technology device for this verification that has been programmed to the requirements of Appendix A, MIL-STD-130, latest version.

(ii) The issuing agency code-

(A) Shall not be placed on the item; and

(B) Shall be derived from the data qualifier for the enterprise identifier.

(d) For each item that requires item unique identification under paragraph (c)(1)(i), (ii), or (iv) of this clause or when item unique identification is provided under paragraph (c)(1)(v), in addition to the information provided as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the Contractor shall report at the time of delivery, as part of the Material Inspection and Receiving Report, the following information:

- (1) Unique item identifier.
- (2) Unique item identifier type.
- (3) Issuing agency code (if concatenated unique item identifier is used).
- (4) Enterprise identifier (if concatenated unique item identifier is used).
- (5) Original part number (if there is serialization within the original part number).
- (6) Lot or batch number (if there is serialization within the lot or batch number).
- (7) Current part number (optional and only if not the same as the original part number).
- (8) Current part number effective date (optional and only if current part number is used).
- (9) Serial number (if concatenated unique item identifier is used).
- (10) Government's unit acquisition cost.
- (11) Unit of measure.
- (12) Type designation of the item as specified in the contract schedule, if any.
- (13) Whether the item is an item of Special Tooling or Special Test Equipment.
- (14) Whether the item is covered by a warranty.

(e) For embedded subassemblies, components, and parts that require DoD item unique identification under paragraph (c)(1)(iii) of this clause or when item unique identification is provided under paragraph (c)(1)(v), the Contractor shall report as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the following information:

- (1) Unique item identifier of the parent item under paragraph (c)(1) of this clause that contains the embedded subassembly, component, or part.
- (2) Unique item identifier of the embedded subassembly, component, or part.
- (3) Unique item identifier type.\*\*
- (4) Issuing agency code (if concatenated unique item identifier is used).\*\*
- (5) Enterprise identifier (if concatenated unique item identifier is used).\*\*
- (6) Original part number (if there is serialization within the original part number).\*\*

(7) Lot or batch number (if there is serialization within the lot or batch number). \*\*

(8) Current part number (optional and only if not the same as the original part number). \*\*

(9) Current part number effective date (optional and only if current part number is used). \*\*

(10) Serial number (if concatenated unique item identifier is used). \*\*

(11) Description.

\*\* Once per item.

(f) The Contractor shall submit the information required by paragraphs (d) and (e) of this clause as follows:

(1) End items shall be reported as specified in the PWS (Atch 4) , The PAR IUID Implementation Plan, and the Government approved PAR IUID Marking Plan using the report capability in the supply support database in the supply chain management program.

(2) Embedded items shall be reported by the following method-

(i) Use of the embedded items capability in the supply support database system;

(g) *Subcontracts*. If the Contractor acquires by subcontract, any item(s) for which item unique identification is required in accordance with paragraph (c)(1) of this clause, the Contractor shall include this clause, including this paragraph (g), in the applicable subcontract(s), including subcontracts for commercial items.

**h. Section J, List of Documents, Exhibits, and Other Attachments** is changed to add Exhibits and Attachments identified on page 14 herein.

4. This supplemental agreement constitutes a full and equitable adjustment and the contractor releases the Government from any and all liability under the contract for further claims or equitable adjustments arising out of or relating to the changes effected hereby. All other contract terms and conditions remain unchanged and in full force and effect as a result of this modification.

## **CDRL GENERAL NOTES/INSTRUCTIONS**

**1. SCOPE:** This Contract Data Requirements List (CDRL) establishes the data to be delivered by the Contractor and the submittal, approval and distribution requirements of all the CDRL data items contained herein. The Contractor shall utilize best commercial practices and the guidance referenced in paragraph 12 of these general notes/instructions in meeting the requirements of this CDRL.

**2. GENERAL:** The Data Item Description (DID) specified in the CDRL is in the Acquisition Streamlining and Standardization Information System (ASSIST) database.

**3. TAILORED DATA ITEMS:** A slash (/) and the letter "T" (e.g., DI-ILSS-80569/T) added to the DID number in Block 4 of the CDRL (DD Form 1423-1) denotes that the DID has been tailored to comply with specific system requirements. The tailoring instructions are listed in Block 16 of each affected DD Form 1423-1.

### **4. MODIFICATION OF DATA REQUIREMENTS:**

a. From time to time during the performance of this contract, the Procuring Contracting Officer (PCO) may, unilaterally, change the place of delivery and the technical office for any line item of contract Exhibit A (DD Form 1423-1) hereto, at no change in contract price, notwithstanding the provision of the clause of Section I entitled "Changes." If there is a change in the place of delivery the Contractor and the PCO may mutually agree to an extension of the data submittal requirement date.

b. From time to time during the performance of this contract, the PCO may, unilaterally, increase or decrease the number of addresses and/or increase or decrease the number of paper copy deliverables (regular or reproducible) specified for any data item of the CDRL hereto, at no change in price provided that the increase in the total number of paper copies (regular or reproducible) for an individual line item of data shall not be greater than one hundred-fifty percent (150%) of the total number of paper copies (regular or reproducible) initially specified in the CDRL nor shall the decrease in the total number of paper copies (regular or reproducible) for an individual item of data be greater than fifty percent (50%) of the total number of paper copies (regular or reproducible) initially specified in the CDRL. In the event of an increase greater than such 150% or of a decrease greater than fifty percent (50%), the parties will negotiate any equitable adjustments in accordance with the procedures of the "Changes" clause. The Contractor shall provide electronic access to all CDRL deliveries without any limitation on number of users.

c. From time to time during the performance of this contract, the PCO may, unilaterally, make other administrative and clarification changes to the CDRL hereto, and the contract price will constitute full satisfaction of any entitlement of equitable adjustment under the "Changes" clause provided the Contractor agrees to accept such change at no change in contract price.

d. Unilateral actions pursuant to (a), and (b) above shall be by the issuance of PCO Letter (PCOL) followed by a Supplemental Agreement to this contract, which will reference this clause as its authority. Any action directed by this clause shall be effected by the Contractor beginning with the first submission of the particular data item or items after receipt by the Contractor and PCO's direction.

**5. DATA SUBMITTAL APPROVALS:** The following definitions apply to Block 8 of the DD Form 1423-1:

a. The use of an "A" in Block 8 indicates that Government approval of the identified document is required to assure that the Contractor is sufficiently prepared to proceed to the next phase of the contract in addition to verifying compliance with the DID and CDRL requirements and requires advance written approval prior to preparation and publication of the final document. Unless otherwise specified on the DD Form 1423-1, the Office of Primary Responsibility (OPR) noted in block 6 will review the data submitted for approval and the PCO (AFLCMC/WLJC) will notify the Contractor of approval/disapproval or corrective action required within forty-five (45) calendar days after receipt of data submittal. If the program office is not able to respond within forty-five (45) calendar days, the Contractor will be notified and a new mutually agreed upon suspense date will be established. If the program office has not provided approval/disapproval/intent to extend due date within forty-five (45) calendar days, the data will be considered automatically approved. However, the Contractor shall notify the program office via telecon or fax prior to assuming approval.

b. If Block 8 has an "N/A" these data items are considered non-approval, however this does not relieve the Contractor of the responsibility of compliance with applicable regulations, standards, procedures, etc. All data submissions are subject to review and approval by the procuring agency for departure from said compliance. Block 8, left blank, does not require a draft submission in advance of the final document unless otherwise specified on the DD Form 1423-1. The presence or absence of an "A" in Block 8 does not relieve the Contractor of the responsibility of full contractual compliance and all data will be subject to review and acceptance by the Government.

c. The PAR program office will formally respond to the Contractor within forty-five (45) calendar days after receipt of any data that is technically disapproved. Data submittal requirements shall not be considered to have been met until the procuring agency has determined that all contractual requirements have been met regarding the identified data.

**6. REVISIONS TO DATA SUBMITTALS AND RESUBMITTALS OF DATA:**

a. Unless otherwise specified, data submittals that are disapproved by the Government, shall be revised and resubmitted by the Contractor within thirty (30) calendar days after receipt of PCOL. If the Contractor cannot resubmit within thirty (30) calendar days, the PAR Data Manager shall be notified within fifteen (15) calendar days and a new mutually agreed upon suspense date will be established.

b. Data submittals that are approved contingent upon revision shall be revised and distributed within thirty (30) calendar days after receipt of PCOL, or as specified in the

delivery requirements of the applicable DD Form 1423-1. If the Contractor cannot resubmit within the required time, the PAR Data Manager shall be notified within fifteen (15) calendar days and a new mutually agreed upon suspense date will be established. Final distribution shall be accomplished within thirty (30) calendar days after receipt of approval or completion of corrective action constituting approval.

## 7. DATA PREPARATION:

- a. Data submitted by the Contractor shall conform to the quality requirements specified on the CDRL for each data item. If the data preparation instructions contained in Block 16 of the DD Form 1423-1 are different from the instructions contained in the DID, the DD Form 1423-1 instructions shall have precedence.

- b. Data shall be delivered by one of the following methods.

1) Electronic Delivery/Availability – includes delivery/availability of data files via a Government approved website, webpage, server or via attachment of electronic files to e-mail messages as mutually agreed to between the Government and the Contractor. Electronic data delivery and access is subject to Government protection/security requirements. Notification of electronic delivery/availability of deliverables shall be sent to AFLCMC/WLJC Data Management Office (DMO). CDRLs (B017, B018, B019, B020, B021, B022, and B023) shall be submitted in accordance with the address in Block 16 of the DD Form 1423-1.

2) Other Electronic Formats – data may be provided in appropriate format using media such as, CD-ROM or DVD-ROM or other suitable physical electronic media. A document may consist of multiple files, but files should not be compressed or archived to save space. Exceptions must be prearranged with AFLCMC/WLJ. The Contractor shall contact AFLCMC/WLJC DMO for Block 14 DD Form 1423-1 distribution requirements ten (10) business days prior to first delivery for each DD Form 1423-1 delivered by these means. Disc label shall contain the following information:

CDRL Item No.	Distribution Statement
Document Title	Export-Control Warning Statement
Submission Date	Destruction Notice
Author, Company, Phone	
File Name(s) and Formats	

All text files shall be submitted as MS-Word or searchable Acrobat (PDF) file documents with copy and paste capability. Each MS-Word document shall have a filename, a subject field and the file should have author/agency/phone in the Author field and key words in the Keywords field.

All non-text documents (spreadsheets, graphics, databases etc.) shall be accompanied by a MS-Word document as described above. Acceptable applicable files for non-text documents include, but are not limited to, PowerPoint, Excel, Access, Project and PDF. Each non-text document shall have a filename, a subject field and the file should have author/agency/phone in the Author field and key words in the Keywords field.

3) Paper Copies – Paper copies shall be submitted on standard 8 ½ x 11- inch document size bond paper and shall be sufficiently legible to be suitable for reproduction from a direct copying machine. The Contractor shall contact AFLCMC/WLJC DMO for Block 14 DD Form 1423-1 distribution requirements ten (10) business days prior to first delivery for each DD Form 1423-1 delivered by these means.

c. The order of precedence is: 1) electronic delivery/availability; 2) CD-ROM/DVD-ROM; 3) 8 1/2 X 11-inch paper format.

d. All data shall be submitted in the English language.

e. Formal deliverables shall be in accordance with Blocks 10-13. Any initial, preliminary, draft, or other interim versions not called out in CDRLs shall be made available informally to the Government upon request.

**8. DOCUMENT REVISIONS:** The Contractor shall comply with the following requirements in the revision of documents provided in response to the data requirements specified in the CDRL. The Government will request from the Contractor, by PCO Letter, submittal of revision(s) to a final data delivery. If the Contractor identifies the need for a revision to a final data delivery, the Contractor shall request from the Government, by contracting letter, approval to proceed with submittal of revised data.

a. When resubmission of data is requested, complete documents shall be submitted unless otherwise specified and shall be marked in accordance with Paragraph 9, Documentation Marking, of these General Notes.

b. A "revisions" page shall be provided and shall contain, as a minimum:

1) A brief description of the reason for revision, including the applicable authority; e.g., Engineering Change Proposal (ECP), change order, supplemental agreement.

2) Revision identification letter or number and revision date.

c. Each revised page shall have the specific changes identified on the revision page.

d. Each page shall contain the revision number.

e. Anytime a revision is submitted, the title page of the document shall indicate the number or letter and date of that revision. Latest revision symbol and date shall be visible on the front surface of the document.

f. The letter of transmittal for each revision shall reference all previous/pertinent correspondence relating to the documentation being submitted.

**9. DOCUMENTATION MARKING:** DoD Directive 5230.24, Distribution Statements on Technical Documents, provides policy and guidance on marking documents. Air Force Instruction (AFI) 61-204, Disseminating Scientific and Technical Information, specifies certain distribution statements to be used on data to control distribution by government agencies such as the Defense Technical Information Center (DTIC).

a. Distribution Statements: Block 9 of the DD Form 1423-1 annotates the relevant distribution statement applicable to the data to be submitted. This distribution statement shall have precedence over other technical documentation on this contract, unless otherwise specified by the PAR program office.

b. Export-Controlled Warning Statement: In addition to the distribution statement annotated in Block 9 of the DD Form 1423-1, the following warning statement shall also apply on all technical data on this contract:

**“WARNING”** - This document contains technical data whose export is restricted by the Arms Export Control Act (Title 22, USC, Sec 2751, et seq.) or the Export Administration Act of 1979, as amended, Title 50, USC, App 2401, et seq. Violations of these export laws are subject to severe criminal penalties. Dissemination in accordance with provisions of DoD Directive 5230.25.

When it is not technically feasible to use the entire statement, an abbreviated marking may be used, and a copy of the full statement added to the “Notice to Accompany Release of Export-Controlled Data” required by DoD Directive 5230.25.

c. Contractor Imposed Distribution Statements. Part 35, of the Federal Acquisition Regulations (FAR) stipulates control procedures for contractor controlled technical information in which the government has limited rights. These procedures shall be followed as described in AFI 61-204, Disseminating Scientific and Technical Information.

d. DESTRUCTION NOTICE – For classified documents, mark documents with the following statement “Destruction Notice - Follow the procedures in DoD 5220.22-M, National Industrial Security Program Operating Manual (NISPOM), Section 5-705, or DoD 5200.1-R, Information Security Program Regulation, Chapter VI.” For unclassified, limited documents, (i.e., not approved for public release) mark documents with the following statement “DESTRUCTION NOTICE – Destroy by any method that will prevent disclosure of contents or reconstruction of the document.”

e. The contractor is responsible for ensuring adequate marking and security measures are in place to prevent unauthorized access to electronic data. The contractor is not authorized to provide copies of any data on the CDRL to activities who are not specifically identified in the distribution block of the CDRL without written government approval from the AFLCMC/WLJ program office.

## **10. METHOD OF TRANSMITTAL:**

a. In addition to DD Form 250 Material Inspection and Receiving Report requirements (where applicable), all data submittals shall be accompanied by a letter of transmittal and the Government shall acknowledge receipt and acceptance, where Government approval is required. All deliverables shall be directed to the OPR listed in Block 6 of the DD Form 1423-1 regardless of the method of data submission (i.e., paper copy, CD ROM/DVD, on-line access, e-mail message, provided at a review, etc.) The letter of transmittal shall include as a minimum: reference to the contract number, program name, data item number, title, CDRL sequence number, revision level, any Contractor's control number assigned to that data, and the method of submittal. The data itself shall contain the above information as well as the transmittal letter number. The Contractor shall place a complete list of addresses at the end of the transmittal document, annotating the data recipients (as listed on the DD Form 1423-1) and of the corresponding number of copies distributed to each.

b. Unless otherwise specified in Block 16 of the DD Form 1423-1, data submittal date is interpreted as the date the Government receives the data. Electronic data available after 3:00 ET shall be considered delivered the next business day. Submittal days are considered as work days unless it's a Saturday delivery, then it would be a Friday submittal; if a Sunday delivery then it would be a Monday submittal. If the submittal day is a federal holiday, then the delivery day would be the first work day following the holiday.

c. For each data item in the CDRL, the contractor shall clearly state in the final transmittal letter (or final DD Form 250 delivery) that this is the last submittal being made and that all contractual requirements concerning that data item have been fulfilled.

d. Classified data shall be submitted in accordance with NISPOM. The Contractor shall contact the PCO for the addressees of classified data.

e. If the same documentation is required on multiple contracts/tasks, only one submittal per functional addressee will be made. When updates are required on one contract/task, all addressees will receive the updates to the documentation with that contract absorbing the cost for the update/change.

**11. DISTRIBUTION/MAILING ADDRESS LIST:** Identify applicable CDRL OPR and addressees. Government data management will provide updated CDRL addressees to Contractor data management via electronic media as required.

## **12. REFERENCE DOCUMENTS** (for guidance purposes).

- a. DoDI 5000.02, Operation of the Defense Acquisition System
- b. DoDI 5200.01, DoD Information Security Program and Protection of Sensitive Compartmented Information

## **CDRL GENERAL NOTES/INSTRUCTIONS**

**1. SCOPE:** This Contract Data Requirements List (CDRL) establishes the data to be delivered by the Contractor and the submittal, approval and distribution requirements of all the CDRL data items contained herein. The Contractor shall utilize best commercial practices and the guidance referenced in paragraph 12 of these general notes/instructions in meeting the requirements of this CDRL.

**2. GENERAL:** The Data Item Description (DID) specified in the CDRL is in the Acquisition Streamlining and Standardization Information System (ASSIST) database.

**3. TAILORED DATA ITEMS:** A slash (/) and the letter "T" (e.g., DI-ILSS-80569/T) added to the DID number in Block 4 of the CDRL (DD Form 1423-1) denotes that the DID has been tailored to comply with specific system requirements. The tailoring instructions are listed in Block 16 of each affected DD Form 1423-1.

### **4. MODIFICATION OF DATA REQUIREMENTS:**

a. From time to time during the performance of this contract, the Procuring Contracting Officer (PCO) may, unilaterally, change the place of delivery and the technical office for any line item of contract Exhibit A (DD Form 1423-1) hereto, at no change in contract price, notwithstanding the provision of the clause of Section I entitled "Changes." If there is a change in the place of delivery the Contractor and the PCO may mutually agree to an extension of the data submittal requirement date.

b. From time to time during the performance of this contract, the PCO may, unilaterally, increase or decrease the number of addresses and/or increase or decrease the number of paper copy deliverables (regular or reproducible) specified for any data item of the CDRL hereto, at no change in price provided that the increase in the total number of paper copies (regular or reproducible) for an individual line item of data shall not be greater than one hundred-fifty percent (150%) of the total number of paper copies (regular or reproducible) initially specified in the CDRL nor shall the decrease in the total number of paper copies (regular or reproducible) for an individual item of data be greater than fifty percent (50%) of the total number of paper copies (regular or reproducible) initially specified in the CDRL. In the event of an increase greater than such 150% or of a decrease greater than fifty percent (50%), the parties will negotiate any equitable adjustments in accordance with the procedures of the "Changes" clause. The Contractor shall provide electronic access to all CDRL deliveries without any limitation on number of users.

c. From time to time during the performance of this contract, the PCO may, unilaterally, make other administrative and clarification changes to the CDRL hereto, and the contract price will constitute full satisfaction of any entitlement of equitable adjustment under the "Changes" clause provided the Contractor agrees to accept such change at no change in contract price.

d. Unilateral actions pursuant to (a), and (b) above shall be by the issuance of PCO Letter (PCOL) followed by a Supplemental Agreement to this contract, which will reference this clause as its authority. Any action directed by this clause shall be effected by the Contractor beginning with the first submission of the particular data item or items after receipt by the Contractor and PCO's direction.

**5. DATA SUBMITTAL APPROVALS:** The following definitions apply to Block 8 of the DD Form 1423-1:

a. The use of an "A" in Block 8 indicates that Government approval of the identified document is required to assure that the Contractor is sufficiently prepared to proceed to the next phase of the contract in addition to verifying compliance with the DID and CDRL requirements and requires advance written approval prior to preparation and publication of the final document. Unless otherwise specified on the DD Form 1423-1, the Office of Primary Responsibility (OPR) noted in block 6 will review the data submitted for approval and the PCO (AFLCMC/WLJC) will notify the Contractor of approval/disapproval or corrective action required within forty-five (45) calendar days after receipt of data submittal. If the program office is not able to respond within forty-five (45) calendar days, the Contractor will be notified and a new mutually agreed upon suspense date will be established. If the program office has not provided approval/disapproval/intent to extend due date within forty-five (45) calendar days, the data will be considered automatically approved. However, the Contractor shall notify the program office via telecon or fax prior to assuming approval.

b. If Block 8 has an "N/A" these data items are considered non-approval, however this does not relieve the Contractor of the responsibility of compliance with applicable regulations, standards, procedures, etc. All data submissions are subject to review and approval by the procuring agency for departure from said compliance. Block 8, left blank, does not require a draft submission in advance of the final document unless otherwise specified on the DD Form 1423-1. The presence or absence of an "A" in Block 8 does not relieve the Contractor of the responsibility of full contractual compliance and all data will be subject to review and acceptance by the Government.

c. The PAR program office will formally respond to the Contractor within forty-five (45) calendar days after receipt of any data that is technically disapproved. Data submittal requirements shall not be considered to have been met until the procuring agency has determined that all contractual requirements have been met regarding the identified data.

**6. REVISIONS TO DATA SUBMITTALS AND RESUBMITTALS OF DATA:**

a. Unless otherwise specified, data submittals that are disapproved by the Government, shall be revised and resubmitted by the Contractor within thirty (30) calendar days after receipt of PCOL. If the Contractor cannot resubmit within thirty (30) calendar days, the PAR Data Manager shall be notified within fifteen (15) calendar days and a new mutually agreed upon suspense date will be established.

b. Data submittals that are approved contingent upon revision shall be revised and distributed within thirty (30) calendar days after receipt of PCOL, or as specified in the

delivery requirements of the applicable DD Form 1423-1. If the Contractor cannot resubmit within the required time, the PAR Data Manager shall be notified within fifteen (15) calendar days and a new mutually agreed upon suspense date will be established. Final distribution shall be accomplished within thirty (30) calendar days after receipt of approval or completion of corrective action constituting approval.

## 7. DATA PREPARATION:

- a. Data submitted by the Contractor shall conform to the quality requirements specified on the CDRL for each data item. If the data preparation instructions contained in Block 16 of the DD Form 1423-1 are different from the instructions contained in the DID, the DD Form 1423-1 instructions shall have precedence.

- b. Data shall be delivered by one of the following methods.

1) Electronic Delivery/Availability – includes delivery/availability of data files via a Government approved website, webpage, server or via attachment of electronic files to e-mail messages as mutually agreed to between the Government and the Contractor. Electronic data delivery and access is subject to Government protection/security requirements. Notification of electronic delivery/availability of deliverables shall be sent to AFLCMC/WLJC Data Management Office (DMO). CDRLs (B017, B018, B019, B020, B021, B022, and B023) shall be submitted in accordance with the address in Block 16 of the DD Form 1423-1.

2) Other Electronic Formats – data may be provided in appropriate format using media such as, CD-ROM or DVD-ROM or other suitable physical electronic media. A document may consist of multiple files, but files should not be compressed or archived to save space. Exceptions must be prearranged with AFLCMC/WLJ. The Contractor shall contact AFLCMC/WLJC DMO for Block 14 DD Form 1423-1 distribution requirements ten (10) business days prior to first delivery for each DD Form 1423-1 delivered by these means. Disc label shall contain the following information:

CDRL Item No.	Distribution Statement
Document Title	Export-Control Warning Statement
Submission Date	Destruction Notice
Author, Company, Phone	
File Name(s) and Formats	

All text files shall be submitted as MS-Word or searchable Acrobat (PDF) file documents with copy and paste capability. Each MS-Word document shall have a filename, a subject field and the file should have author/agency/phone in the Author field and key words in the Keywords field.

All non-text documents (spreadsheets, graphics, databases etc.) shall be accompanied by a MS-Word document as described above. Acceptable applicable files for non-text documents include, but are not limited to, PowerPoint, Excel, Access, Project and PDF. Each non-text document shall have a filename, a subject field and the file should have author/agency/phone in the Author field and key words in the Keywords field.

3) Paper Copies – Paper copies shall be submitted on standard 8 ½ x 11- inch document size bond paper and shall be sufficiently legible to be suitable for reproduction from a direct copying machine. The Contractor shall contact AFLCMC/WLJC DMO for Block 14 DD Form 1423-1 distribution requirements ten (10) business days prior to first delivery for each DD Form 1423-1 delivered by these means.

c. The order of precedence is: 1) electronic delivery/availability; 2) CD-ROM/DVD-ROM; 3) 8 1/2 X 11-inch paper format.

d. All data shall be submitted in the English language.

e. Formal deliverables shall be in accordance with Blocks 10-13. Any initial, preliminary, draft, or other interim versions not called out in CDRLs shall be made available informally to the Government upon request.

**8. DOCUMENT REVISIONS:** The Contractor shall comply with the following requirements in the revision of documents provided in response to the data requirements specified in the CDRL. The Government will request from the Contractor, by PCO Letter, submittal of revision(s) to a final data delivery. If the Contractor identifies the need for a revision to a final data delivery, the Contractor shall request from the Government, by contracting letter, approval to proceed with submittal of revised data.

a. When resubmission of data is requested, complete documents shall be submitted unless otherwise specified and shall be marked in accordance with Paragraph 9, Documentation Marking, of these General Notes.

b. A "revisions" page shall be provided and shall contain, as a minimum:

1) A brief description of the reason for revision, including the applicable authority; e.g., Engineering Change Proposal (ECP), change order, supplemental agreement.

2) Revision identification letter or number and revision date.

c. Each revised page shall have the specific changes identified on the revision page.

d. Each page shall contain the revision number.

e. Anytime a revision is submitted, the title page of the document shall indicate the number or letter and date of that revision. Latest revision symbol and date shall be visible on the front surface of the document.

f. The letter of transmittal for each revision shall reference all previous/pertinent correspondence relating to the documentation being submitted.

**9. DOCUMENTATION MARKING:** DoD Directive 5230.24, Distribution Statements on Technical Documents, provides policy and guidance on marking documents. Air Force Instruction (AFI) 61-204, Disseminating Scientific and Technical Information, specifies certain distribution statements to be used on data to control distribution by government agencies such as the Defense Technical Information Center (DTIC).

a. Distribution Statements: Block 9 of the DD Form 1423-1 annotates the relevant distribution statement applicable to the data to be submitted. This distribution statement shall have precedence over other technical documentation on this contract, unless otherwise specified by the PAR program office.

b. Export-Controlled Warning Statement: In addition to the distribution statement annotated in Block 9 of the DD Form 1423-1, the following warning statement shall also apply on all technical data on this contract:

**“WARNING”** - This document contains technical data whose export is restricted by the Arms Export Control Act (Title 22, USC, Sec 2751, et seq.) or the Export Administration Act of 1979, as amended, Title 50, USC, App 2401, et seq. Violations of these export laws are subject to severe criminal penalties. Dissemination in accordance with provisions of DoD Directive 5230.25.

When it is not technically feasible to use the entire statement, an abbreviated marking may be used, and a copy of the full statement added to the “Notice to Accompany Release of Export-Controlled Data” required by DoD Directive 5230.25.

c. Contractor Imposed Distribution Statements. Part 35, of the Federal Acquisition Regulations (FAR) stipulates control procedures for contractor controlled technical information in which the government has limited rights. These procedures shall be followed as described in AFI 61-204, Disseminating Scientific and Technical Information.

d. DESTRUCTION NOTICE – For classified documents, mark documents with the following statement “Destruction Notice - Follow the procedures in DoD 5220.22-M, National Industrial Security Program Operating Manual (NISPOM), Section 5-705, or DoD 5200.1-R, Information Security Program Regulation, Chapter VI.” For unclassified, limited documents, (i.e., not approved for public release) mark documents with the following statement “DESTRUCTION NOTICE – Destroy by any method that will prevent disclosure of contents or reconstruction of the document.”

e. The contractor is responsible for ensuring adequate marking and security measures are in place to prevent unauthorized access to electronic data. The contractor is not authorized to provide copies of any data on the CDRL to activities who are not specifically identified in the distribution block of the CDRL without written government approval from the AFLCMC/WLJ program office.

## **10. METHOD OF TRANSMITTAL:**

a. In addition to DD Form 250 Material Inspection and Receiving Report requirements (where applicable), all data submittals shall be accompanied by a letter of transmittal and the Government shall acknowledge receipt and acceptance, where Government approval is required. All deliverables shall be directed to the OPR listed in Block 6 of the DD Form 1423-1 regardless of the method of data submission (i.e., paper copy, CD ROM/DVD, on-line access, e-mail message, provided at a review, etc.) The letter of transmittal shall include as a minimum: reference to the contract number, program name, data item number, title, CDRL sequence number, revision level, any Contractor's control number assigned to that data, and the method of submittal. The data itself shall contain the above information as well as the transmittal letter number. The Contractor shall place a complete list of addresses at the end of the transmittal document, annotating the data recipients (as listed on the DD Form 1423-1) and of the corresponding number of copies distributed to each.

b. Unless otherwise specified in Block 16 of the DD Form 1423-1, data submittal date is interpreted as the date the Government receives the data. Electronic data available after 3:00 ET shall be considered delivered the next business day. Submittal days are considered as work days unless it's a Saturday delivery, then it would be a Friday submittal; if a Sunday delivery then it would be a Monday submittal. If the submittal day is a federal holiday, then the delivery day would be the first work day following the holiday.

c. For each data item in the CDRL, the contractor shall clearly state in the final transmittal letter (or final DD Form 250 delivery) that this is the last submittal being made and that all contractual requirements concerning that data item have been fulfilled.

d. Classified data shall be submitted in accordance with NISPOM. The Contractor shall contact the PCO for the addressees of classified data.

e. If the same documentation is required on multiple contracts/tasks, only one submittal per functional addressee will be made. When updates are required on one contract/task, all addressees will receive the updates to the documentation with that contract absorbing the cost for the update/change.

**11. DISTRIBUTION/MAILING ADDRESS LIST:** Identify applicable CDRL OPR and addressees. Government data management will provide updated CDRL addressees to Contractor data management via electronic media as required.

## **12. REFERENCE DOCUMENTS** (for guidance purposes).

- a. DoDI 5000.02, Operation of the Defense Acquisition System
- b. DoDI 5200.01, DoD Information Security Program and Protection of Sensitive Compartmented Information
- c. DoD 5200.1-R, Information Security Program Regulation
- d. DoD 5010.12-M, Procedures for the Acquisition and Management of Technical Data.
- e. DoD 5220.22-M, National Industrial Security Program Operating Manual
- f. DoD Directive 5230.09 Clearance of DoD Information for Public Release

- g. DoDI 5230.24, Distribution Statements on Technical Documents
- h. DoD Directive 5230.25 Withholding Of Unclassified Technical Data From Public Disclosure
- j. AFI 61-204, Disseminating Scientific and Technical Information

# CONTRACT DATA REQUIREMENTS LIST (1 Data Item)

A. CONTRACT LINE ITEM NO. TBD	B. EXHIBIT B	C. CATEGORY: TDP _____ TM _____ OTHER _____ MGMT _____
D. SYSTEM/ITEM	E. CONTRACT/PR NO. FA8625-16-C-6599	F. CONTRACTOR Boeing

## 16. REMARKS (Continued)

1.5 Time-phased Cost XML Guideline. Format 7 shall be submitted using the DoD-approved Time-Phased Cost XML Guideline and schema.

1.6 All IPMR files must be electronically forwarded to the central repository at the DCARC website at <http://cade.osd.mil/EVM>.

1.7 Subcontractors with DFARS 252.234-7002 requirement shall report Format 1-7 XML to the Government as specified in Block 14. This may be reported as part of the prime's submission or directly by the subcontractor to the central repository.

1.8 Method of compression: If submitted electronic files are in a compressed format, the ZIP method for compressing the XML submission will be agreed to by both the Government and Contractor.

## 2. Format 1-7 Instructions:

2.1 Format 1 Instructions: Contract Work Breakdown Structure (CWBS) elements shall be reported in accordance with MIL-STD-881. The human readable Format 1 shall be reported through CWBS Level 4 except for the following CWBS elements: Fuselage, Communication/Identification (Aircrew & Aviation) and Presidential Mission Communication System (MCS) - report to Level 5.

2.2 Format 2 Instructions: Use organizational categories, e.g., Integrated Product Team (IPT) or functional organizations including each subcontractor with EVMS flow down requirements (DFARS 252.234-7002) and each major vendor separately as an add/non-add item.

2.3 Format 3 Instructions: The individual lines when added to the "other" will total to the difference between the Performance Measurement Baseline (PMB) ending of the period and PMB beginning of the period. Significant differences (values exceeding +/- 5%) between the PMB at the beginning and end of each specified period by period and in total shall be individually listed and explained in Format 5. Significant changes shall be reported individually so that the "other" line is less than 30% of the total by period or at complete.

2.4 Format 3 and 4 time periods shall be consistent. Formats 3 and 4 columns 4-9 are months beyond the current period; columns 10-11 are defined as Government Fiscal Year (GFY) Quarters; columns 12-13 are defined as GFY; and column 14 shall be the remainder of the contractual period of performance to reconcile with the totals. Format 3 columns 2-15 should sum to column 16 and in Format 4 columns 2-14 should sum to column 15.

## 2.5 Format 4 Instructions:

(1) The contractor's estimate-to-complete projections shall be used for time phasing hours for each organizational category specified in Format 2 and include hours for effort performed by significant Intercompany Work Authorizations.

(2) Significant changes that require explanations in Format 5 are those that change more than +/-5% as measured between consecutive periods in columns 2, 4-9.

(3) The reportable unit in Format 4 shall be in hours.

## 2.6 Format 5 Instructions

(1) The reporting level defined above is the level where variance reporting thresholds are applied.

(2) The variance reporting thresholds are:

(a) +/- \$1M or +/-10% for current period cost or schedule variances.

(b) +/- \$2M or +/- 10% for cumulative cost or schedule variances.

(c) +/- \$2M or +/- 5% for at-complete variances.

(d) Narrative explanations required and variance thresholds will be reviewed periodically, and may be adjusted by contract modification with no change in contract price.

(3) Without the Government direction; the contractor shall report the top three current month, cumulative, and at complete schedule and cost variances. A total of 15 WBS elements are reported as applicable. The default method of contractor selection may be changed by the Government at no cost and without a change to the CDRL.

(4) The contractor or the Government may identify additional variances to report over the 15 to cover emerging trends. Items shall be reviewed monthly to see if still required; the intent of the requirement is to be temporary in nature. Temporary is defined as six months or less.

(5) Variance Analysis Narratives. All reportable WBS variances report shall:

(a) Adequately address the root cause of the variance.

(b) Adequately discuss any schedule variance in terms of float and the impact to the program critical path, if any.

**CONTRACT DATA REQUIREMENTS LIST**  
(1 Data Item)

A. CONTRACT LINE ITEM NO. TBD	B. EXHIBIT B	C. CATEGORY: TDP _____ TM _____ OTHER _____ MGMT _____
D. SYSTEM/ITEM	E. CONTRACT/PR NO. FA8625-16-C-6599	F. CONTRACTOR Boeing

16. REMARKS (Continued)

(c) The narrative shall be quantitative and explain the causes that account for at least 70% of the variance exceeding the threshold.

(6) If there are no changes to the reportable element problem analysis, expected impacts, or corrective action status then specify, "no changes since the last reported analysis" and reference the IPMR date when the narrative was initially reported.

(7) IPMRs required from subcontractors will be provided electronically using the DOD approved XML format.

2.7 Format 6 Instructions

(1) The IMS is also submitted in the contractor's native schedule format including the calendar(s).

(2) The IMS shall include all discrete work. Subcontractors with EVM flow down shall be incorporated with sufficient detail to develop a realistic critical path.

(3) The Schedule Risk Assessment (SRA) is reportable:

(a) At least semi-annually or whenever the contractor internally requires an SRA to be performed.

(b) Additionally before an Integrated Baseline Review or approval of an Over-Target Baseline/Over-Target Schedule, and/or Single Point Adjustment.

(4) The driving path reportable in Format 5 is defined as the next contract milestone not yet completed (e.g., PDR, CDR).

(5) Baseline dates shall not be planned as late as possible and are planned consistent with best expectations at the time of baseline establishment.

2.8 Format 7 supplemental instructions – None.

BLK 14:

a. Provide in electronic media.

b. CDRL delivery addressee notification will be maintained by the Government in an EXCEL spreadsheet and forwarded to the prime contractor data management office upon contract modification award with revisions as required.

c. Form must be electronically submitted to the Defense Cost and Resource Center (DCARC) central repository website, <http://cade.osd.mil/EVM>. The DCARC central repository website also provides an EVM Central Repository Submitter Guide.

## **CDRL GENERAL NOTES/INSTRUCTIONS**

**1. SCOPE:** This Contract Data Requirements List (CDRL) establishes the data to be delivered by the Contractor and the submittal, approval and distribution requirements of all the CDRL data items contained herein. The Contractor shall utilize best commercial practices and the guidance referenced in paragraph 12 of these general notes/instructions in meeting the requirements of this CDRL.

**2. GENERAL:** The Data Item Description (DID) specified in the CDRL is in the Acquisition Streamlining and Standardization Information System (ASSIST) database.

**3. TAILORED DATA ITEMS:** A slash (/) and the letter "T" (e.g., DI-ILSS-80569/T) added to the DID number in Block 4 of the CDRL (DD Form 1423-1) denotes that the DID has been tailored to comply with specific system requirements. The tailoring instructions are listed in Block 16 of each affected DD Form 1423-1.

### **4. MODIFICATION OF DATA REQUIREMENTS:**

a. From time to time during the performance of this contract, the Procuring Contracting Officer (PCO) may, unilaterally, change the place of delivery and the technical office for any line item of contract Exhibit A (DD Form 1423-1) hereto, at no change in contract price, notwithstanding the provision of the clause of Section I entitled "Changes". If there is a change in the place of delivery the Contractor and the PCO may mutually agree to an extension of the data submittal requirement date.

b. From time to time during the performance of this contract, the PCO may, unilaterally, increase or decrease the number of addresses and/or increase or decrease the number of paper copy deliverables (regular or reproducible) specified for any data item of the CDRL hereto, at no change in price provided that the increase in the total number of paper copies (regular or reproducible) for an individual line item of data shall not be greater than one hundred-fifty percent (150%) of the total number of paper copies (regular or reproducible) initially specified in the CDRL nor shall the decrease in the total number of paper copies (regular or reproducible) for an individual item of data be greater than fifty percent (50%) of the total number of paper copies (regular or reproducible) initially specified in the CDRL. In the event of an increase greater than such 150% or of a decrease greater than fifty percent (50%), the parties will negotiate any equitable adjustments in accordance with the procedures of the "Changes" clause. The Contractor shall provide electronic access to all CDRL deliveries without any limitation on number of users.

c. From time to time during the performance of this contract, the PCO may, unilaterally, make other administrative and clarification changes to the CDRL hereto, and the contract price will constitute full satisfaction of any entitlement of equitable adjustment under the "Changes" clause provided the Contractor agrees to accept such change at no change in contract price.

d. Unilateral actions pursuant to (a), and (b) above shall be by the issuance of PCO Letter (PCOL) followed by a Supplemental Agreement to this contract, which will reference this clause as its authority. Any action directed by this clause shall be effected by the Contractor beginning with the first submission of the particular data item or items after receipt by the Contractor and PCO's direction.

**5. DATA SUBMITTAL APPROVALS:** The following definitions apply to Block 8 of the DD Form 1423-1:

a. The use of an "A" in Block 8 indicates that Government approval of the identified document is required to assure that the Contractor is sufficiently prepared to proceed to the next phase of the contract in addition to verifying compliance with the DID and CDRL requirements and requires advance written approval prior to preparation and publication of the final document. Unless otherwise specified on the DD Form 1423-1, the Office of Primary Responsibility (OPR) noted in block 6 will review the data submitted for approval and the PCO (AFLCMC/WLJC) will notify the Contractor of approval/disapproval or corrective action required within forty-five (45) calendar days after receipt of data submittal. If the program office is not able to respond within forty-five (45) calendar days, the Contractor will be notified and a new mutually agreed upon suspense date will be established. If the program office has not provided approval/disapproval/intent to extend due date within forty-five (45) calendar days, the data will be considered automatically approved. However, the Contractor shall notify the program office via telecon or fax prior to assuming approval.

b. If Block 8 has an "N/A" these data items are considered non-approval, however this does not relieve the Contractor of the responsibility of compliance with applicable regulations, standards, procedures, etc. All data submissions are subject to review and approval by the procuring agency for departure from said compliance. Block 8, left blank, does not require a draft submission in advance of the final document unless otherwise specified on the DD Form 1423-1. The presence or absence of an "A" in Block 8 does not relieve the Contractor of the responsibility of full contractual compliance and all data will be subject to review and acceptance by the Government.

c. The PAR program office will formally respond to the Contractor within forty-five (45) calendar days after receipt of any data that is technically disapproved. Data submittal requirements shall not be considered to have been met until the procuring agency has determined that all contractual requirements have been met regarding the identified data.

**6. REVISIONS TO DATA SUBMITTALS AND RESUBMITTALS OF DATA:**

a. Unless otherwise specified, data submittals that are disapproved by the Government, shall be revised and resubmitted by the Contractor within thirty (30) calendar days after receipt of PCOL. If the Contractor cannot resubmit within thirty (30) calendar days, the PAR Data Manager shall be notified within fifteen (15) calendar days and a new mutually agreed upon suspense date will be established.

b. Data submittals that are approved contingent upon revision shall be revised and distributed within thirty (30) calendar days after receipt of PCOL, or as specified in the

delivery requirements of the applicable DD Form 1423-1. If the Contractor cannot resubmit within the required time, the PAR Data Manager shall be notified within fifteen (15) calendar days and a new mutually agreed upon suspense date will be established. Final distribution shall be accomplished within thirty (30) calendar days after receipt of approval or completion of corrective action constituting approval.

## **7. DATA PREPARATION:**

- a. Data submitted by the Contractor shall conform to the quality requirements specified on the CDRL for each data item. If the data preparation instructions contained in Block 16 of the DD Form 1423-1 are different from the instructions contained in the DID, the DD Form 1423-1 instructions shall have precedence.

- b. Data shall be delivered by one of the following methods.

1) Electronic Delivery/Availability – includes delivery/availability of data files via a Government approved website, webpage, server or via attachment of electronic files to e-mail messages as mutually agreed to between the Government and the Contractor. Electronic data delivery and access is subject to Government protection/security requirements. Notification of electronic delivery/availability of deliverables shall be sent to AFLCMC/WLJC Data Management Office (DMO).

2) Other Electronic Formats – data may be provided in appropriate format using media such as, CD-ROM or DVD-ROM or other suitable physical electronic media. A document may consist of multiple files, but files should not be compressed or archived to save space. Exceptions must be prearranged with AFLCMC/WLJ. The Contractor shall contact AFLCMC/WLJC DMO for Block 14 DD Form 1423-1 distribution requirements ten (10) business days prior to first delivery for each DD Form 1423-1 delivered by these means. Disc label shall contain the following information:

CDRL Item No.	Distribution Statement
Document Title	Export-Control Warning Statement
Submission Date	Destruction Notice
Author, Company, Phone	
File Name(s) and Formats	

All text files shall be submitted as MS-Word or searchable Acrobat (PDF) file documents with copy and paste capability. Each MS-Word document shall have a filename, a subject field and the file should have author/agency/phone in the Author field and key words in the Keywords field.

All non-text documents (spreadsheets, graphics, databases etc.) shall be accompanied by a MS-Word document as described above. Acceptable applicable files for non-text documents include, but are not limited to, PowerPoint, Excel, Access, Project and PDF. Each non-text document shall have a filename, a subject field and the file should have author/agency/phone in the Author field and key words in the Keywords field.

3) Paper Copies – Paper copies shall be submitted on standard 8 ½ x 11- inch document size bond paper and shall be sufficiently legible to be suitable for reproduction from a direct copying machine. The Contractor shall contact AFLCMC/WLJC DMO for Block 14 DD Form 1423-1 distribution requirements ten (10) business days prior to first delivery for each DD Form 1423-1 delivered by these means.

c. The order of precedence is: 1) electronic delivery/availability; 2) CD-ROM/DVD-ROM; 3) 8 1/2 X 11-inch paper format.

d. All data shall be submitted in the English language.

e. Formal deliverables shall be in accordance with Blocks 10-13. Any initial, preliminary, draft, or other interim versions not called out in CDRLs shall be made available informally to the Government upon request.

**8. DOCUMENT REVISIONS:** The Contractor shall comply with the following requirements in the revision of documents provided in response to the data requirements specified in the CDRL. The Government will request, by PCOL, submittal of revision(s) to data previously delivered. If the Contractor identifies the need for a revision to data previously delivered, the Contractor shall request from the Government, by contracting officer letter, approval to proceed with submittal of revised data.

a. When resubmission of data is requested, complete documents shall be submitted unless otherwise specified.

b. A "revisions" page shall be provided in the front of each revision and shall contain, as a minimum:

- 1) A brief description of the reason for revision, including the applicable authority; e.g., Engineering Change Proposal (ECP), change order, supplemental agreement.
- 2) Revision identification letter or number and revision date.
- 3) Appropriate administrative instructions; e.g., security information, revision instructions, etc.

c. Document drawing revisions using Boeing standard processes.

d. Anytime a revision is submitted, the title page of the document shall indicate the number or letter and date of that revision. Latest revision symbol and date shall be visible on the front surface of the document.

e. The letter of transmittal for each revision shall reference all previous/pertinent correspondence relating to the documentation being submitted.

**9. DOCUMENTATION MARKING:** DoD Directive 5230.24, Distribution Statements on Technical Documents, provides policy and guidance on marking documents. Air Force Instruction (AFI) 61-204, Disseminating Scientific and Technical Information, specifies certain distribution statements to be used on data to control distribution by government agencies such as the Defense Technical Information Center (DTIC).

a. Distribution Statements: Block 9 of the DD Form 1423-1 annotates the relevant distribution statement applicable to the data to be submitted. This distribution statement shall have precedence over other technical documentation on this contract, unless otherwise specified by the PAR program office.

b. Export-Controlled Warning Statement: In addition to the distribution statement annotated in Block 9 of the DD Form 1423-1, the following warning statement shall also apply on all technical data on this contract:

**“WARNING”** - This document contains technical data whose export is restricted by the Arms Export Control Act (Title 22, USC, Sec 2751, et seq.) or the Export Administration Act of 1979, as amended, Title 50, USC, App 2401, et seq. Violations of these export laws are subject to severe criminal penalties. Dissemination in accordance with provisions of DoD Directive 5230.25.

When it is not technically feasible to use the entire statement, an abbreviated marking may be used, and a copy of the full statement added to the “Notice to Accompany Release of Export-Controlled Data” required by DoD Directive 5230.25.

c. Contractor Imposed Distribution Statements. Part 35, of the Federal Acquisition Regulations (FAR) stipulates control procedures for contractor controlled technical information in which the government has limited rights. These procedures shall be followed as described in AFI 61-204, Disseminating Scientific and Technical Information.

d. DESTRUCTION NOTICE – For classified documents, mark documents with the following statement “Destruction Notice - Follow the procedures in DoD 5220.22-M, National Industrial Security Program Operating Manual (NISPOM), Section 5-705, or DoD 5200.1-R, Information Security Program Regulation, Chapter VI.” For unclassified, limited documents, (i.e., not approved for public release) mark documents with the following statement “DESTRUCTION NOTICE – Destroy by any method that will prevent disclosure of contents or reconstruction of the document.”

e. The contractor is responsible for ensuring adequate marking and security measures are in place to prevent unauthorized access to electronic data. The contractor is not authorized to provide copies of any data on the CDRL to activities who are not specifically identified in the distribution block of the CDRL without written government approval from the AFLCMC/WLJ program office. The contractor shall not include any proprietary markings on any data created/delivered on this contract.

## **10. METHOD OF TRANSMITTAL:**

a. In addition to DD Form 250 Material Inspection and Receiving Report requirements (where applicable), all data submittals shall be accompanied by a letter of transmittal and the Government shall acknowledge receipt and acceptance, where Government approval is required. All deliverables shall be directed to the OPR listed in Block 6 of the DD Form 1423-1 regardless of the method of data submission (i.e., paper copy, CD ROM/DVD, on-line access, e-mail message, provided at a review, etc.) The letter of transmittal shall include as a minimum: reference to the contract number, program name, data item number, title, CDRL sequence number, revision level, any Contractor's control number assigned to that data, and the method of submittal. The data itself shall contain the above information as well as the transmittal letter number. The Contractor shall place a complete list of addresses at the end of the transmittal document, annotating the data recipients (as listed on the DD Form 1423-1) and of the corresponding number of copies distributed to each.

b. Unless otherwise specified in Block 16 of the DD Form 1423-1, data submittal date is interpreted as the date the Government receives the data. Electronic data available after 3:00 ET shall be considered delivered the next business day. Submittal days are considered as work days unless it's a Saturday delivery, then it would be a Friday submittal; if a Sunday delivery then it would be a Monday submittal. If the submittal day is a federal holiday, then the delivery day would be the first work day following the holiday.

c. For each data item in the CDRL, the contractor shall clearly state in the final transmittal letter (or final DD Form 250 delivery) that this is the last submittal being made and that all contractual requirements concerning that data item have been fulfilled.

d. Classified data shall be submitted in accordance with NISPOM. The Contractor shall contact the PCO for the addressees of classified data.

e. If the same documentation is required on multiple contracts/tasks, only one submittal per functional addressee will be made. When updates are required on one contract/task, all addressees will receive the updates to the documentation with that contract absorbing the cost for the update/change.

**11. DISTRIBUTION/MAILING ADDRESS LIST:** Identify applicable CDRL OPR and addressees. Government data management will provide updated CDRL addressees to Contractor data management via electronic media as required.

## **12. REFERENCE DOCUMENTS** (for guidance purposes).

**12. PUBLIC RELEASE.** Any information (classified or unclassified) pertaining to this contract shall not be released for public dissemination except as provided by the Industrial Security Manual or unless it has been approved for public release by appropriate U.S. Government authority. Proposed public releases shall be submitted for approval prior to release ☐ Direct ☒ Through (Specify)

a. AFLCMC/WLJ, Presidential Aircraft Recapitalization Office, 2590 Loop Road West, Wright-Patterson AFB OH 45433 for program related material. Transmission of public release request via e-mail is not authorized.

b. Ref Blk 10e(1): Public release of Sensitive Compartmented Information (SCI) is not authorized. See Continuation Sheet

to the Directorate for Freedom of Information and Security Review, Office of the Assistant Secretary of Defense (Public Affairs)\* for review.

\*In the case of non-DoD User Agencies, requests for disclosure shall be submitted to that agency.

**13. SECURITY GUIDANCE.** The security classification guidance needed for this classified effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes; to challenge the guidance or the classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. (Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any documents/guides/extracts referenced herein. Add additional pages as needed to provide complete guidance.)

The National Industrial Security Program Operating Manual (NISPOM), February 2006, applies.

a. Access to classified information is required as identified in the Performance Work Statement/Statement of Work (PWS/SOW). Refer questions to Frank Maguire, AFLCMC/WLOS, (937) 255-1069.

b. Ref Blk 10a/11h: COMSEC Account required. See PWS/SOW, paragraph 1.3.6 for details.

c. Ref Blk 10c: CNWDI briefing required prior to granting access. See NISPOM Chapter 9 for details.

d. Ref Blk 10e (1): Contractor requires access to SCI materials; SCI security requirements apply, (see 21 IS/INS, SSO WPAFB, SCI addendum, for details).

e. Ref Blks 10e(2): Contractor will require access to intelligence information and must comply with AFI 14-303/AFMC Supplement 1. The Program Manager has determined that disclosure does not create an unfair competitive advantage for the contractor or a conflict of interest with the contractor's obligation to protect the information and will submit the AFMC Form 210 to the AFLCMC Senior Intelligence Officer (SIO) (21 IS) for approval prior to granting access.

f. Access to SIPRNET is authorized.

g. Ref Blk 10g: NATO briefing required prior to granting access. See NISPOM Chapter 10, Section 7, for details. SIPRNET users require a NATO awareness briefing. A formal NATO briefing is required when the SIPRNET enclave, or other classified networks, is approved for NATO and no additional security measures are in place to preclude access.

h. Ref Blk 10j: See DoDM 5200.01, Volume 4, DoD Information Security Program: Controlled Unclassified Information (CUI), Enclosures 3 & 4 and DoD 5400.7-R/Air Force Manual 33-302, DoD Freedom of Information Act (FOIA) Program, and AFI 16-1404, Air Force Information Security Program, for requirements.

SEE CONTINUATION SHEET

**14. ADDITIONAL SECURITY REQUIREMENTS.** Requirements, in addition to ISM requirements, are established for this contract. ☒ Yes ☐ No  
(If Yes, identify the pertinent contractual clauses in the contract document itself, or provide an appropriate statement which identifies the additional requirements. Provide a copy of the requirements to the cognizant security office. Use Item 13 if additional space is needed.)

a. Ref Blk 10e(1): SCI security requirements apply, see SCI addendum for details.

b. Ref Blk 10k: Program Protection Plan (PPP) will be provided by the Government activity.

SEE CONTINUATION SHEET

**15. INSPECTIONS.** Elements of this contract are outside the inspection responsibility of the cognizant security office. ☒ Yes ☐ No  
(If Yes, explain and identify specific areas or elements carved out and the activity responsible for inspections. Use Item 13 if additional space is needed.)

a. Ref Blk 11i: Contractor performance will occur at See Continuation Sheet, Table 1 for performance locations, DSS is relieved of all inspection responsibilities for contractor performance on the installations. See Table 1 for the Security Office that will maintain security oversight.

b. Ref Blks 10a/11h: NSA has oversight for COMSEC.

SEE CONTINUATION SHEET

**16. CERTIFICATION AND SIGNATURE.** Security requirements stated herein are complete and adequate for safeguarding the classified information to be released or generated under this classified effort. All questions shall be referred to the official named below.

c. Ref Blk 11i: TEMPEST (EMSEC) requirements apply, See Statement of Work Paragraph 1.3.6 for details.

d. Ref Blk 11i: EMSEC requirements apply to the SCIF execution location. See Defense Federal Acquisition Regulation Supplement (DFARS) Clause 252.239-7000, *Protection Against Compromising Emanations*, dated 25 Jun 04, revised 10 Jan 08; Intelligence Community (IC) Tech Spec-for ICD/ICS 705, *Technical Specifications For Construction and Management of Sensitive Compartmented Information Facilities*, version 1.3, dated 10 Sep 15; Committee on

National Security Systems Advisory Memorandum (CNSSAM) TEMPEST/01-13, *Red/Black Installation Guidance*, dated 17 Jan 14.

e. Ref Blk 11j: OPSEC requirements apply. See Presidential Aircraft Recapitalization PPP, Annex F.

f. Ref Block 11l: Air Force Instruction 31-101, *Integrated Defense*, Air Mobility Command (AMC) Supplement, paragraph 9.9.5 (Added), *Security for Presidential and SENEX Aircraft in Contractor Maintenance Facilities*, and the AMC Supplement's Attachment 16, *Presidential and SENEX Aircraft in Depot Maintenance/Modification* (Added) apply. Documents will be provided under separate cover.

g. Ref Block 11l: DoD Instruction 5210.87, *Selection of DoD Military and Civilian Personnel and Contractor Employees, for Assignment to Presidential Support Activities*, applies. Document will be provided under separate cover.

**Block 15 Cont'd**

c. Ref Blk 10e (1): SCI security requirements apply, see SCI addendum (para 13) for details.

**ADDENDUM TO DD FORM 254 (Block 10c (1)) – Effective date: 1 Oct 15**  
**SENSITIVE COMPARTMENTED INFORMATION (SCI) CLAUSES**

1. **Reference Block 14:** The National Security Act of 1947, as amended; Executive Order (EO) 12333, as amended; EO 13526; EO 13549; EO 12829; EO 12968, as amended; 32 CFR Part 2001; 32 CFR Part 2003, 32 CFR Part 2004; and other applicable provisions of law; DoD Manual 5105.21, Volumes 1-3, dated 19 Oct 12, AFMAN 14-304; ICD 701, ICD 702, ICE 703, DCID 6-03 w/ICPM 2006-700-9, ICD 704/ICPGs 704.1. ICPG 704.2, ICPG 704.3, ICPG 704.4, ICD 710, DCID 6-06, as amended; DCID 6-07, ICD 705, ICS 705-1; Joint DODISS/Cryptologic SCI Information Systems Security Standards (JDCSISSS), ICD 503 and ICD 503 Practitioner Manual, 29 Jan 13 (this defines the RMF, Reciprocity, Roles & Responsibilities and each of the 6 steps of RMF). AFMC SCI Management Guidance provides the necessary guidance for physical, personnel, industrial, information and information systems security measures and is part of the Sensitive Compartmented Information (SCI) security specifications for the contract.
2. SCI will not be released to contractors without the specific release approval by the originator for the material as outlined in the governing directives and based on prior approval and certification of “need-to-know” by the Contracting Officer (CO) and/or Contracting Officer’s Representative (COR): William G. Fleming, AFLCMC/WLOS, (937) 656-5333.
3. Names of contractor personnel requiring access to SCI and justification for SCI billets will be submitted for coordination and action to **21 IN/INS, SSO WPAFB** after the contract monitor approval/concurrence. Upon receipt of written approval from the COR, the Contractor Special Security Officer (CSSO) may submit the necessary forms to Defense Security Service (DSS) for a Single Scope Background Investigation (SSBI) for those personnel nominated for SCI access in accordance with the National Industrial Security Program Operating Manual (NISPOM).
4. This contract will require 20 SCI billets in order to fulfill contractual obligations incurred. SCI access is subject to US Government review and approval as outlined in the aforementioned SCI security regulations. Upon completion or cancellation of the contract, the CSSO will debrief all personnel not required for contract closeout and those billets will be disestablished.
5. The CSSO must restrict access to only those individuals who possess the necessary security clearance and who are actually providing services under the contract. Further dissemination to other contractors, sub-contractors, other government agencies, private individuals or organizations is prohibited unless authorized in writing by the releasing agency.
6. SCI materials furnished in support of this contract remain the property of the DoD department or command that released it. Upon completion or cancellation of the contract, all SCI materials furnished will be returned to the direct custody of the originator of the materials.
7. Classified foreign intelligence materials must not be released to foreign nationals or immigrant aliens whether or not they are also consultants, US contractors, or employees of the contractor, regardless of the level of their security clearance, except with advanced written permission from the originator.

8. Inquiries pertaining to classification guidance on SCI will be directed to the COR listed in para 2 above. SCI security management issues shall be directed to SSO, **21 IS/INS, SSO WPAFB**, phone (937) 255-0431, DSN prefix is 785.

9. An SCI Facility (SCIF) meeting the physical security requirements outlined in ICD 705 must be either used for contract work or established and maintained at the contractor location. All SCI used for this contract shall be stored, handled, and maintained in a SCIF, be it the local contractor SCIF or similarly SCI- accredited facilities used by the contractor. Address of SCIF for contract execution:

a. Location: To be determined (TBD)

b. SCIF ID Number: TBD

c. Name & Telephone number of Contractor Special Security Officer (CSSO): TBD.

10. For contract work within a contractor established SCIF, information systems (computers), electronic connectivity, and similar electronic methods of storing and communicating within and outside the SCIF must be in compliance with DCID 6/3, DIAM 50-4, the JDCSISSS, and any additional instructions issued by Defense Intelligence Agency (DIA)/DAC-2A, **21 IS/INS, SSO WPAFB**.

11. For contract work within an approved contractor facility, all SCI information systems will be accredited and authorized following the Risk Management Framework (RMF), IAW ICD 503 and the ICD 503 Practitioners Manual. The A&A process includes the JDCSISS and related DIA, ODNI, or 25<sup>th</sup> AF/A6S policy. This includes all electronic connectivity and electronic methods for storing and communicating within and outside the SCIF. Other networks processing corporate unclassified, SIPRNET, or other collateral information will follow the cognizant authority policy requirements. Prior authorization for use of these systems must be obtained in order to process in DIA SCIFs.

12. The CSSO must maintain accountability for all classified foreign intelligence materials.

13. The CSSO must not reproduce classified foreign intelligence without advance approval of the releasing agency. If permission is granted, each copy will be controlled in the same manner as the original. The CSSO must not destroy any classified foreign intelligence without advance approval of the releasing agency.

14. Reference Block 15: This contract requires access to SCI. If the contractor has established a SCIF, the DIA and its designees are responsible for all inspections of the contractor SCIF and SCI security management for ensuring compliance with all SCI security regulations and policies. AFLCMC, 21 IS/INS, SSO WPAFB maintains security cognizance for all SCI requirements on this contract and all inspections of the SCIFs will be conducted by the Intelligence Community accrediting agency who accredit the SCIF. The Defense Security Service (DSS) is relieved of security oversight for SCI performance.

15. The estimated completion date for this contract effort is: 31 December 2017.

SCI requirements reviewed and approved by: Name:

# COST AND SOFTWARE DATA REPORTING PLAN

Form Approved  
OMB No. 0704-0188

The public reporting burden for this collection of information is estimated to average 8 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Department of Defense, Executive Services Directorate (0704-0188). Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

a. SUBMISSION	b. FORM(S)	c. EVENT	d. AS OF DATE (YYYYMMDD)	e. DUE DATE (YYYYMMDD)
1 2	CWBS Dictionary 1921, 1921-1	Furnishings PDR CWBS Dictionary, End of Month (EOM) Furnishings PDR Initial Report, EOM	20180630 20180630	20181030 20181030

**15. REMARKS** Reports should include all work as of a specific report date, even if the event name references an individual aircraft. The individual aircraft reference is regards to the date only not the work being reported.

**1.NON-RECURRING/RECURRING DEFINITIONS:** The contractor will utilize the specific definitions and requirements in the CSDR Manual (DoD 5000.04-M-1) and the definitions in the DIDs for the forms 1921, and 1921-1 to segregate Recurring and Nonrecurring costs discretely and not as an aggregate. Refinements or expansions to these definitions are TBD pending the pre-contract or post contract award conference.

**2.COST ACCOUNTING STANDARDS (CAS) DISCLOSURE STATEMENT:** Describe significant accounting changes from previous accounting period in the Remarks section of the reports, if applicable.

**3.DD Form 1921-3 Contractor Business Data Report:**

a.The Contractor Business Data Report is prepared by and for the business entity (e.g., business unit, segment, or site) responsible for submitting the Forward Pricing Rate Proposal (FPRP) representing the basis for Forward Pricing Rate Agreement (FPRA) negotiations with the government.

b.Reports are submitted annually at the end of the contractor's fiscal year.

c.Data for Future Years should be reflective of the number of years contained in the most current document, i.e., the FPRP or the FPRA. If the document applies to more than three future years, attach additional future year sheets as required. In the absence of these documents, estimates should be provided for three future years.

Attachments 11, 12 and 13 are to be provided in the proposal

Attachments 11, 12 and 13 are to be provided in the proposal

Attachments 11, 12 and 13 are to be provided in the proposal

**Air Force Technical Manual Contract Requirements (TMCR)**

For The

**Presidential Aircraft Recapitalization (PAR) Program**

**SECTION 1 TECHNICAL ORDER (TO) PROGRAM REQUIREMENTS**

**1.0 TMCR Tailoring**

1.1 The Contractor may propose additional changes to the TMCR but changes must be mutually agreed to and approved by the Procuring Contracting Officer (PCO) prior to implementing changes in the TMCR document, including the associated tables, matrices and Specification/Standard Interface Records (SIR). However, when the Contractor proposes additional TO requirements they shall be attached to the Contract Data Requirements List (CDRL) for TO delivery, included in the proposal as a separate exhibit, and referenced in the proposal Statement of Work (SOW). Proposals shall be compatible with the Air Force (AF) infrastructure.

1.2 AF TO acquisition procedures, including procedures for tailoring this document, are found in TO 00-5-3, AF Technical Order Life Cycle Management available at:  
<http://www.tinker.af.mil/technicalorders/index.asp>

**2.0 TO Program Scope**

2.1 The Contractor shall tailor Section 2 of this document to propose the TO types (Table 1- TMSS Requirements for the PAR Program) and source data, TO updates, commercial manuals, supplements, supplement manuals, and TOs prepared to Non-Government Standards (NGS) (Table 2 – Additional TM Type Selections) required to conduct the PAR Program's objectives.

2.2 In the event of a conflict between the text of this document and the references herein, the text of this document shall take precedence.

2.3 The Contractor shall ensure that all applicable TO requirements of this contract are levied on all suppliers. The Contractor shall ensure that suppliers furnish operation and maintenance information applicable to the equipment being acquired, including changes and/or revisions, for inclusion of such information in applicable operation and maintenance TOs for the system/equipment which the equipment supports. When a supplier prepares system TOs, the Contractor shall supply required interface data.

**3.0 Commercial Manuals**

3.1 The Contractor shall propose the use of existing commercial manuals to the maximum extent possible without impairing program support objectives. The Contractor shall describe the method used to recommend and submit specific manuals to the AF for review and approval. AF activities will use Military Performance Specifications (MIL-PRF)-32216, *Evaluation of Commercial Off-The-Shelf (COTS) Manuals and Preparation of Supplemental Data*, as a guide for review and acceptance of all recommended commercial manuals and Military Detail Specifications (MIL-DTL)-7700, *Flight Manuals, Air Refueling Procedures, And Abbreviated Checklists*, as an additional guide for commercial Flight Manual contents.

3.2 The intent is to use commercial data to support the PAR System in an Interactive Electronic Technical Manuals (IETM) format. Before any Military Specifications (MIL-SPEC) manuals are proposed, an evaluation In Accordance With (IAW) MIL-PRF-32216 must be accomplished.

3.2.1 The Contractor shall include recommendations for supplemental data required for each commercial manual in the Contractor Furnished Aeronautical Equipment/Contractor Furnished Equipment (CFAE/CFE) notice or letter of recommendation.

3.2.2 If adequate commercial manuals are not available from one supplier, the Contractor shall evaluate alternate sources for the data, or recommend the most cost-effective alternatives to provide long-term maintainability of the equipment acquired.

3.2.3 If the AF disapproves or rejects a commercial manual, the Contractor shall prepare supplemental data or new MIL-SPEC manuals as specified in Table 1. If a new manual is required the Contractor will submit a revised CFAE/CFE notice through the PCO.

3.3 The Contractor, if commercial data is approved, shall merge commercial manual information along with modification data into a single data file.

3.4 The costs of obtaining or developing adequate commercial manuals shall be negotiated on a case-by-case basis if costs are undetermined at the time this contract is approved.

3.5 The AF will assign TO numbers to approved commercial manuals. When multi-manuals are furnished by the Contractor, the AF may assign more than one TO number, i.e., one for the operation manual, one for the maintenance manual and one for the parts identification manual.

3.6 When recommending use of commercial manuals, the Contractor shall determine if they have been previously-approved for AF use. Refer to TO 0-4-6-2, Items Cross-Reference File, Equipment Numbers to TO Numbers (available through normal TO distribution channels), or the InterService Technical Information Exchange System (ITIES) database (see TO 00-5-1). Furnish approved commercial manual TO or Technical Manuals (TM) numbers with the manual recommendation when available.

#### **4.0 Technical Manual Specifications and Standards (TMSS) Tailoring**

4.1 The TMSS selected in Table 1 are required for the PAR Program.

4.2 Deficiencies, improvements, and questions concerning TMSS requirements may be resolved by written request and justified recommendations/suggestions for resolution submitted through the PCO and Technical Order Management Agency (TOMA) AFLCMC/WLJ, BLDG 558, 2590 Loop Road West WPAFB, OH 45433-7142. Approved recommendations, corrections, and clarifications will be maintained with contract documentation.

#### **5.0 Subsequent TO/Data Requirements**

5.1 The Contractor shall propose a process for notifying the AF when additional TO or source data requirements are identified subsequent to contract award. This process shall require AF review and approval of recommended additional requirements prior to contractual approval.

5.2 Draft Supplemental Data for interim TO safety or operational supplements and interim urgent action or interim immediate action Time Compliance Technical Order (TCTO) shall be provided by electronic mail, facsimile transmission, telephone or other rapid means as directed by the acquiring activity.

5.3 The Contractor shall ensure that TO requirements contained herein do not duplicate other tasks or data requirements of the contract.

## **6.0 TO Development**

6.1 The Contractor shall propose TO development practices and procedures that ensure TOs and data are compatible with the Technical Order Life Cycle Management Plan. Air Force TO Acquisition procedures, including procedures for tailoring this document, are found in TO 00-5-3, AF Technical Order Life Cycle Management, located on the Internet at <http://www.tinker.af.mil/technicalorders/index.asp>. In addition, TOs shall be written to a scope and depth of coverage sufficient to conduct the operations and maintenance concepts as specified in Military Standard (MIL-STD)-38784, *Standard Practice for Manuals, Technical: General Style and Format Requirements*.

6.2 Page-oriented MIL-SPEC TOs shall be formatted with text, graphics, and delivery according to the TMSS specified in Section 2, Table 1 or commercial manual equivalents as identified in MIL-PRF-32216 and approved by the AF. The Contractor shall develop TO files (tagged instances) using Standard Generalized Markup Language (SGML) according to the Document Type Definition (DTD) referenced in the appendix to MIL-STD-38784 and each applicable military detail or performance specification (MIL-DTL or MIL-PRF).

6.3 MIL-SPEC TOs in IETMs format shall be developed IAW Aerospace and Defense Industries Association of Europe/Aerospace Industries Association (ASD/AIA) S1000D, *International Specification for Technical Publications Utilizing a Common Source Database*, as well as AF business rules defined in MIL-STD 3048.

6.4 The Contractor may propose use of other commercial NGS for development of TOs, but must justify this choice based on life-cycle cost savings to the AF and compatibility with existing systems.

6.5 Data and updates for flight manuals, operational checklists, maintenance manuals, and maintenance checklists must be usable by tablet type devices.

6.6 Flight/Maintenance Manuals Operational Supplements will be developed and delivered as replacement change pages unless otherwise mutually agreed upon between the Contractor and Technical Order Management Agency/Flight Manual Manager (TOMA/FMM).

6.7 The Contractor shall furnish supplemental manuals in the same style and format as the original manual, or as required by specifications cited in Table 2. Supplemental manuals are normally used to segregate classified from unclassified TO data. The Title Page of the supplemental manual shall contain the statement, "This manual is incomplete without TO NOXX-XXXXX-XX". Supplemental manuals differ from supplements in that they are assigned a separate TO number and are not incorporated in the referenced manual at a later date.

## **7.0 TO Numbering**

7.1 The Contractor shall notify the AF of manuals which require TO numbers. AF procedures for numbering TOs are described in TO 00-5-3 and TO 00-5-18, *AF Technical Order Numbering System*, (available at <http://www.tinker.af.mil/technicalorders/index.asp>).

## **8.0 Data Rights**

See Contract Sections A – I

## **9.0 Classification, Distribution, Destruction, Disclosure, and Export Control Notices**

9.1 The Contractor shall determine the correct markings and controls for classified and restricted distribution data and TOs IAW the program's Security Classification Guide (SCG) and Department of Defense Manual (DoDM) 5200.01, Department of Defense Instruction (DoDI) 5230.24, Air Force Instruction (AFI) 31-401, AFI 61-204, and MIL-STD-38784 (available at <http://www.e-publishing.af.mil/> or <https://assist.dla.mil/online/start/index.cfm>). The Contractor shall contact the Program Office PCO and TOMA for requests to modifying or developing any new DTDs to support use of NGS, canceled TMSS, or undeveloped TMSS DTDs. If permission is granted, the Contractor must submit any proposed DTDs through the PCO and TOMA to AFLCMC/HIAM, WPAFB, OH 45433-5653 for validation of TMSS compatibility with approved electronic TO (eTO) viewing solutions. New DTDs shall not be developed in lieu of existing DTDs, including those for legacy TMSS. Rules shall be so constructed that TO output complies with the functional requirements of the associated TMSS, and shall be documented in a SIR. DTDs and rule sets submitted and approved in execution of the contract shall become the property of the AF. Direct questions about the application of SGML tagging to digital TO files to AFLCMC/HIAM (email: [SGMLSupport@us.af.mil](mailto:SGMLSupport@us.af.mil)) or <https://assist.dla.mil/online/start/index.cfm>). The markings and notices shall be reviewed during In-Process Reviews (IPR). **NOTE:** Distribution limitations will be determined on a case-by-case basis as TOs are developed, dependent upon TO content.

## **10.0 TO Quality**

10.1 The Contractor's Quality Assurance (QA) Program shall ensure TOs prepared for the PAR Program are IAW this contract and meet AF requirements. As part of this effort the Contractor shall maintain a Technical Manual Quality Assurance Program (TMQAP). The TMQAP shall be available for review by the AF at the TO Guidance Conference. Quality checks of TO development include actual performance of developed procedures, and desktop analysis for non-procedural data using engineering drawings, and available source material. Simulation (walk-through/talk-through) is used to simulate the actions required by comparing the task steps to the hardware, while not actually removing any equipment. Malfunctions, to include destructive, shall not be introduced into the system or equipment for any purpose.

10.2 Conferences and reviews shall be held at locations and times agreed upon by Contractor and TOMA (AFLCMC/WLJ) to control and manage the program and oversee the TO preparation process. The Contractor shall minimize holding reviews for individual manuals.

10.2.1 The Contractor shall prepare minutes for all TO related meetings. Draft meeting minutes shall be available at the conclusion of the meetings or event and shall be reviewed and approved by the TOMA or designated individual prior to distribution. Formal meeting minutes shall be delivered not later than 10 working days after completion of the meeting or event IAW CDRL B004. Deliveries of copies of the meeting minutes will be as specified in Part B of this document.

10.2.2 Coordinating through the TOMA, the Contractor shall host and participate in a TO guidance conference to be held within 60 days after contract award. During this conference the Contractor shall present a briefing on their interpretation of the basic contract, SOW, CDRLs, DIDs, MIL-SPEC, MIL-STD, SIRs, this document and the planned preparation and delivery of the TOs and related data.

10.2.3 As part of the TO Guidance Conference the Contractor will present the initial Technical Order Status and Schedule (TOSS) required to support the PAR Program for review and approval by AFLCMC/WLJ. The initial TOSS shall be contained in the TO guidance conference minutes (CDRL B004). Any changes to the TOSS after review and approval at the TO guidance conference shall be coordinated with and approved by AFLCMC/WLJ.

10.2.4 The Contractor shall host and participate in IPRs to ensure that data developed for the PAR Program is being developed IAW the contract and cited specifications. The Contractor shall support IPRs with the technical writers, engineers, and QA personnel as required. IPRs will be held at approximately the 65/95% completion points for the data developed as part of this effort. During the IPRs the Contractor will be responsible to maintain a master mark-up along with comments recorded on Air Force Technical Order (AFTO) Form 158 TO Review Comment Sheet of the document being reviewed. A copy of the mark-ups and completed 158's will be provided to the TOMA or designated individual at the conclusion of the review. The 65/95% IPRs may be combined on a case by case basis with the prior approval of the TOMA.

10.2.5 IPR TO data shall be technically edited and reviewed according to the TMQAP. Manuscript (handwritten) data is not acceptable for any data to be reviewed that is not presented using the Electronic TO (eTO) viewing systems. The TMQAP checklists shall be available for review by the AF during the IPRs.

10.3 The Contractor shall certify that new or modified TO procedures and data developed to support the PAR Program effort are accurate, adequate, current, and usable for their intended purpose. The AF may witness the certification activities. The Contractor shall incorporate comments generated by the certification process into the TMs prior to submitting the TOs for verification. At the completion of the certification, the Contractor shall submit a letter to the AFLCMC/WLJ stating that certification has been completed and that any deficiencies identified during the process have been corrected. The Contractor will ensure all necessary changes and corrections to affected manuals are accomplished to meet contract delivery schedule requirements. The Contractor shall notify the AF at least 180 days prior of the need for any Government Furnished Information/Government Furnished Equipment (GFI/GFE) required to perform certification tasks.

10.4 The Contractor shall support AF verification activities as required by the TOMA. Contractor verification support will consist of on station technical writing or engineering support and maintaining a master mark-up of the document and record minutes during the AF verification process. The intent is to only verify new or modified TO procedures. At conclusion of the verification, the master mark-up will be approved by the TOMA or designated representative. Copies of the master mark-up will be maintained by the TOMA and the Contractor.

10.5 TO Pre-publication Reviews (PPR) are examinations of TOs to ensure incorporation of agreed upon changes from IPRs and verification activities, and to ensure the manual meets style and format requirements. The Contractor shall host and co-chair PPRs with the TOMA and HQ AMC A3/A4 personnel based on the type of manual. The Contractor shall prepare and provide copies of TOs and TO updates in MIL-SPEC compliance for the PPR. The TOs shall have been approved by Contractor QA, be in compliance with the applicable MIL-SPECs, and incorporate all verification comments and corrections approved by the program management office.

## **11.0 TO and Source Data Maintenance**

11.1 The Contractor shall propose methods for maintaining accuracy, currency, and configuration of TOs and source data throughout the contract period of performance. Maintenance includes preparation of TO and source data updates to incorporate corrections; equipment configuration changes; and maintenance and operational concept changes.

11.2 The Contractor shall propose the frequency by manual type for updates. The Contractor shall develop, maintain, and deliver a TCTO Status and Schedule Report.

11.3 The Contractor shall incorporate all TO Publication Change Requests (PCR), AFTO Form 82, AFTO Form 252, service bulletins, changes, and revisions resulting from the regularly planned commercial revision programs applicable as required. The Contractor shall deliver TOs and changes in digital format as identified in Part B of this document. The Contractor shall establish and maintain Original Equipment Manufacturer (OEM) agreements for access to the commercial source data, including aircraft technical manual revision service, proprietary data, Wire Information and Release System (WIRS), and commercial Illustrated Parts Catalog (IPC) changes as necessary to accomplish the requirements in this contract. The Contractor shall incorporate commercial Federal Aviation Administration (FAA) approved aircraft manual changes into TOs as required. The Contractor shall ensure all agreements with OEM are in place at the time of contract award.

11.4 The Contractor shall prepare TO changes in the style and format of existing manuals. The Contractor shall request any departures from established criteria, including TCTOs, through the PCO prior to accomplishment.

11.5 The Contractor shall not release TOs, Wiring Diagrams and /or information lists unless approved by AFLCMC/WLJ.

11.6 The Contractor shall incorporate TO changes utilizing the commercial source data, including aircraft technical manual revision service, proprietary data, and commercial IPC changes and deliver to the AFLCMC/WLJ. The Contractor shall incorporate technical manual changes into the TOs.

11.6.1 The Contractor shall deliver copies of commercial TO updates per the requirements in TO 00-5-3, Chapter 3.11 and Table 4-1 to the offices identified in this document. The Contractor shall recommend the category of the recommended change to AFLCMC/WLJ. The Contractor shall incorporate Government furnished supplements into the file.

11.6.2 The Contractor shall deliver copies of commercial TO updates per the requirements in TO 00-5-1, Chapter 9 to the offices identified in the part B of this document. The Contractor shall recommend the category of the recommended change to AFLCMC/WLJ. The Contractor shall incorporate Government furnished supplements into the file.

11.6.3 The Contractor shall deliver the TOs in electronic copy per FMM direction. The Contractor shall deliver copies of the OEM's flight manual change in the form of operations manual bulletins and revisions to the offices identified by the FMM for review and approval. Approval or disapproval will be returned to the Contractor within 10 working days. Supplements shall not be incorporated in the flight manual TOs unless specifically directed by the FMM.

11.6.4 The Contractor shall track and incorporate service literature Wiring Diagram Manual (WDM) changes for all affected WDM TOs and update the WIRS database for all AF approved service literature. The Contractor shall submit commercial PCRs to the OEM for service literature changes to the maintenance manuals and track service literature incorporation for all affected maintenance manuals. The Contractor shall maintain and deliver a PAR approved Service Bulletin and Airworthiness Directive Status Report.

11.6.5 The Contractor shall include updated checklist and work card changes simultaneously with TO changes, as required.

## **12.0 TO Delivery**

12.1 The Contractor shall propose practices and procedures for secure access to or delivery of digital TO files, including those for Preliminary Technical Order (PTO), source data, reproduction masters, and program support data. Practices and procedures shall be compatible with the program's Integrated Digital Environment (IDE). TO file delivery formats shall be according to the tailored TM Delivery Requirements Matrices included in Section 2 of this document. Paper TO delivery is not acceptable for final delivery of TOs. All manual types identified in Section 2, Table 1 will be delivered IAW the requirements and guidance outlined within this document.

12.2 The Contractor shall certify and compose SGML-tagged TO document files prior to delivery to the AF and verify that content tagging has been accomplished to the levels provided in the DTD. **NOTE:** The AF will certify the files prior to acceptance using the public domain "SGMLS Parser" (<http://jclark.com/sp/>).

12.3 When accepted after review by AF using MIL-PRF-32216, the Contractor shall digitally integrate COTS manuals and military content. This file will be presented and distributed as a single file. If commercial manual is not acceptable a manual shall be prepared IAW with Table 1.

12.4 IETM data base delivery shall be according to the business rules documented in MIL-STD-3048.

## **13.0 Schedules**

13.1 The Contractor shall include TO program events and schedules in their proposed Integrated Master Plan (IMP) and Integrated Master Schedule (IMS), and update the IMS throughout the period of performance. PAR System Preliminary Technical Manuals/Flight Manuals shall be delivered 120 days prior to the start of Developmental Test (DT). **NOTE:** AF policy requires delivery of verified TOs prior to or concurrently with delivery of operational equipment to the field (AFI 21-303, *Technical Orders*). This policy will determine TO development and delivery schedules throughout the acquisition phase of a program.

## **14.0 TCTO**

14.1 The Contractor shall propose practices and procedures to develop TCTOs and related TO updates when tasked as part of the approval process for Engineering Change Proposals (ECPs) to configured items. Costs for TCTO package development must be included in ECP costs; not included as direct proposal costs. **NOTE:** ECPs are reviewed and approved by the Government's Configuration Control Board (CCB). If the CCB decides that a TCTO is the appropriate method of implementation, the Government may request the Contractor develop the TCTO package for AF coordination and approval IAW TO 00-5-15, *Air Force Time Compliance Technical Order Process*, (available at <http://www.robins.af.mil/library/technicalorders.asp>).

## **15.0 TO Reproduction Management**

15.1 The Contractor shall propose practices and procedures for managing the PAR program PTO reproduction requirements. Contractor shall develop and implement a Reproduction Management process for digital media consisting of reproduction of the digital file on magnetic/optical media and distribution according to identification labels. Reproduction Management may also include configuration control and storage of reproduction masters. While reproduction masters are in Contractor's custody, they will be placed under configuration control based configuration specific identifiers such as versions and revision levels. Reproduction masters will be stored in a controlled access repository.

SECTION 2. TM TYPE AND DELIVERY REQUIREMENTS

PART A – TM TYPE SELECTION TABLES.

<p><b>TABLE 1</b></p> <p><b>TMSS REQUIREMENTS FOR THE PAR PROGRAM</b></p>		
<b>Title or Type of Manuals</b>	<b>Specification</b>	<b>Required</b>
1. Inspection TOs	MIL-DTL-5096	
a. Inspection and Maintenance Requirements (-6) Manual		<input checked="" type="checkbox"/>
b. Acceptance and Functional Check Flight (FCF) Procedures (-6CF) Manual		<input checked="" type="checkbox"/>
c. Acceptance and Functional Check Flight (-6CL) Checklist		<input checked="" type="checkbox"/>
d. Workcards		<input checked="" type="checkbox"/>
e. Inspection Requirements Cards		<input checked="" type="checkbox"/>
f. Flow/Sequence Charts		<input checked="" type="checkbox"/>
g. Checklists		
(1) Maintenance/Operations (Non-Aircrew)		<input checked="" type="checkbox"/>
(2) Operations (Aircrew)		<input checked="" type="checkbox"/>
2. Cargo Aircraft Loading and Offloading TOs	MIL-DTL-5288	
a. Manual		<input checked="" type="checkbox"/>
b. Checklists		<input checked="" type="checkbox"/>
3. Weight and Balance (Aircraft)	MIL-DTL-5920	
a. Loading Data Manual		<input checked="" type="checkbox"/>
b. Sample Basic Weight Checklists		<input checked="" type="checkbox"/>
4. Flight Manuals (see notes)	MIL-DTL-7700	
a. Flight Manual		<input checked="" type="checkbox"/>
b. Performance Data Manual		<input checked="" type="checkbox"/>
c. Air Refueling Manual		<input type="checkbox"/>
d. Air Refueling Checklist		<input type="checkbox"/>
5. List of Applicable Publications	MIL-DTL-8031	<input checked="" type="checkbox"/>
6. Structural Repair Manuals (for Aircraft)	MIL-DTL-9854	<input checked="" type="checkbox"/>
7. Munitions/Weapons Loading Procedures, Non- nuclear and Nuclear	MIL-DTL-9977	
a. Nuclear Weapons Basic Information and Loading Procedures		<input type="checkbox"/>
b. Nuclear Weapons Loading Procedures		<input type="checkbox"/>
c. Non-nuclear Munitions Basic		<input type="checkbox"/>
d. Non-nuclear Loading Procedures		<input type="checkbox"/>
e. Integrated Combat Turnaround Procedures		<input type="checkbox"/>
f. Non-nuclear Munitions Loading Standard Data Packages (SDPs)		<input type="checkbox"/>

**TABLE 1**  
**TMSS REQUIREMENTS FOR THE PAR PROGRAM**

<b>Title or Type of Manuals</b>	<b>Specification</b>	<b>Required</b>
g. Loading Procedures Checklists		<input type="checkbox"/>
h. Integrated Loading Procedures Checklists		<input type="checkbox"/>
i. Nuclear Weapons Loading Procedure Checklists		<input type="checkbox"/>
j. Integrated Combat Turnaround Procedures Checklists		<input type="checkbox"/>
k. NATO Stage B Cross-Servicing Checklists		<input type="checkbox"/>
8. Space Operations and Support Documentation TOs -- Commercial specification (all space systems & missiles) -- MIL-SPEC (Intercontinental Ballistic Missiles) -- MIL-SPEC (Space Systems)	ANSI/AIAA-R024-1993 MIL-PRF-38311 MIL-PRF-38314	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
a. Operations Manual		<input type="checkbox"/>
b. Operations Checklists		<input type="checkbox"/>
c. Technical Manuals and Related Checklists		<input type="checkbox"/>
9. Nuclear and Non-nuclear Weapon Delivery and Aircrew Procedures Manuals and Checklists	MIL-PRF-38384	
a. Non-nuclear Weapon Delivery Manual (Strategic Bomber & Tactical Aircraft)		<input type="checkbox"/>
b. Nuclear Bomb Delivery Manual (Strategic Bomber Aircraft)		<input type="checkbox"/>
c. Aircrew Nuclear Weapon Delivery Manual (Strategic Bomber Aircraft)		<input type="checkbox"/>
d. Aircrew Nuclear Weapon Delivery Manual (Tactical Aircraft)		<input type="checkbox"/>
e. Non-nuclear Weapon Delivery Checklist (Strategic Bomber & Tactical Aircraft)		<input type="checkbox"/>
f. Nuclear Bomb Delivery Checklist (Strategic Bomber Aircraft)		<input type="checkbox"/>
g. Aircrew Nuclear Weapon Delivery Checklist (Tactical Aircraft)		<input type="checkbox"/>
h. Non-nuclear Weapon Delivery Source Data Packages		<input type="checkbox"/>
10. Work Unit Code Manual	MIL-DTL-38769	<input checked="" type="checkbox"/>
11. Calibration Procedures	MIL-PRF-38793	<input checked="" type="checkbox"/>
12. Time Compliance Technical Orders (TCTOs)	MIL-DTL-38804	<input checked="" type="checkbox"/>
13. Aircraft Battle Damage Assessment and Repair TOs	MIL-DTL-87158	<input checked="" type="checkbox"/>
14. Illustrated Parts Breakdown	MIL-DTL-38807	<input checked="" type="checkbox"/>
15. On-Equipment Organizational Maintenance Manual Set (see notes)	MIL-DTL-83495	
a. General Equipment (GE) Manual		<input checked="" type="checkbox"/>
b. General System (GS) Manuals		<input checked="" type="checkbox"/>
c. Combined GE & GS Manual		<input checked="" type="checkbox"/>
d. Job Guide (JG) Manuals		<input checked="" type="checkbox"/>
e. Fault Reporting (FR) Manual		<input checked="" type="checkbox"/>
f. Fault Isolation (FI) Manual		<input checked="" type="checkbox"/>
g. Wiring Data (WD) Manual		<input checked="" type="checkbox"/>
h. Schematic Diagram (SD) Manual		<input checked="" type="checkbox"/>
16. Operation and Maintenance Instructions in Work Package Format	MIL-DTL-87929	

**TABLE 1**  
**TMSS REQUIREMENTS FOR THE PAR PROGRAM**

<b>Title or Type of Manuals</b>	<b>Specification</b>	<b>Required</b>
a. Maintenance Manuals		
(1) Intermediate Maintenance		<input checked="" type="checkbox"/>
(2) Depot Maintenance		<input checked="" type="checkbox"/>
(3) Combined (I&D) Maintenance		<input type="checkbox"/>
(4) On Condition Maintenance		<input checked="" type="checkbox"/>
b. Operation & Maintenance Instruction Manuals		<input type="checkbox"/>
c. Special Manuals		
(1) Aircraft Engine Testing and Trending Procedures		<input checked="" type="checkbox"/>
(2) Aircraft Power Package Testing Procedures		<input type="checkbox"/>
(3) Static Firing of Missile Motors		<input type="checkbox"/>
(4) System Peculiar Corrosion Control		<input type="checkbox"/>
(5) Nondestructive Inspection (NDI)		<input checked="" type="checkbox"/>
(6) Aircraft Structural Integrity Program (ASIP)		<input checked="" type="checkbox"/>
(7) Automated Test Equipment (ATE) Operator Test Procedures		<input type="checkbox"/>
(8) Special Requirements for Storage and Maintenance Procedures; All Up Round (AUR) Munitions/Launchers and Associated Support Equipment, Conventional Components and Chemical Munitions/Biological Research (CMBR) Agents		<input type="checkbox"/>
(9) Parachute Packing Procedures		<input type="checkbox"/>
(10) Operators Instructions (Hand-Held Flight Computers)		<input checked="" type="checkbox"/>
(11) Installation-Engineering Facility (Ground Communication-Electronic (C-E) Equipment)		<input checked="" type="checkbox"/>
d. Checklists (IAW MIL-PRF-5096)		<input checked="" type="checkbox"/>
e. With Illustrated Parts Breakdown (see notes)		<input checked="" type="checkbox"/>
17. Commercial Manuals (Evaluate according to MIL-PRF-32216)		<input checked="" type="checkbox"/>
18. Aircraft Cross-servicing Guide	MIL-DTL-22202	<input type="checkbox"/>
19. Interactive Electronic Technical Manuals (IETM - Contact 754 ELSG/ILMT for guidance.)	ASD-S1000D - International Specification for Technical Publications Utilizing a Common Source Data Base	<input checked="" type="checkbox"/>

TABLE 2

ADDITIONAL TM TYPE SELECTIONS

NOTES:

- Check all applicable boxes.
- For commercial manual supplemental data only, under the specification heading, enter “Same style and format,” “MIL-PRF-38807” (for Illustrated Parts Breakdown (IPB) data), or “MIL-STD-38784.”
- For existing MIL-SPEC manuals not being updated to latest specification requirements, enter “Same style and format” under the specification heading.
- For manuals proposed to NGS, list the type of manual in the appropriate column and the NGS in the Specification column. Manuals proposed to an approved NGS shall meet the functional requirements of the approved TMSS for the TO type, e.g., On-Equipment Maintenance Manual Set (OMMS) prepared to S1000D shall meet the requirements of MIL-PRF-83495 (which serves as business rules for manual style, format, and content).

**PART B - TM DELIVERY REQUIREMENTS  
FOR PRESIDENTIAL AIRCRAFT RECAPITALIZATION (PAR)**

**TM DATA TYPE DELIVERED \_\_\_\_\_.**

**Delivery Format Requirements Codes**

**P** - Paper (draft or manuscript only; cannot be used for final delivery)

**M** - Mixed paper and digital (G, H or I)

Digital delivery only:

**G** - Standard Generalized Mark-up Language (SGML)

**H** - Hyper Text Mark-up Language (HTML)

**I** - Indexed Portable Document Format (IPDF) File

**X** - Extensible Mark-up Language (XML)

**C** - Computer Graphics Metafile (CGM) Version 3 or higher if approved

**EXAMPLE:** M(G) / 2 [Paper and SGML / 2 copies]

**NOTES:**

- Delivery format requirements codes indicate the media/file format to be delivered for each program event.
- TCTO requirements are specified in the contract vehicle approving the TCTO.
- When on-line access is a contractual requirement, copy quantity will normally be Ø (zero).
- For NGS or non-standard TMSS instances, delivery shall include the associated DTDs, Formatted Output Specification Instance (FOSIs)/Style Sheets, XML schemas, etc.

**SECTION 3. SPECIFICATION/STANDARD INTERFACE RECORDS (SIRs)**

**NOTES:**

- All TMSS applicable to this contract shall have an appropriately tailored SIR attached to this section.
- SIRs included in the untailored TMCR format represent the minimum tailoring requirements that must be included in the final contract, unless the entire SIR is not applicable; e.g., if MIL-DTL-22202D is not required, the entire SIR can be deleted.
- MIL-STD-38784 must be included in all contracts/proposals for AF TMSS-developed TOs.
- Digital requirements shall not be tailored out. Tailoring shall be limited to the options expressed in paragraphs 6.2. Any requests for tailoring outside of these requirements must be coordinated with the specification IAW paragraph 9.1.
- Unless otherwise indicated, copies of federal and military specifications, standards, and handbooks are available from the Acquisition Streamlining and Standardization Information System (ASSIST) web page, <http://quicksearch.dla.mil/>.
- Non-government Standards (NGS) shall be provided by the Contractor. The Government will not be responsible for providing NGS.
- TMSS entries designated with A, F, M or N refer to Army, Air Force, Marine Corps or Navy requirements.
- Comments (recommendations, additions, deletions) and any pertinent data which may be in use in improving Air Force TMSS documents should be submitted to IAW with paragraph 9.1.

**SPECIFICATION/STANDARD INTERFACE RECORD FOR MIL-DTL-38804, 24 MAY 2012**

---

**Time Compliance Technical Orders – Preparation**

**NOTE:** Entries marked with an asterisk (\*) will have to be manually entered and tagged in SGML files until the specification and its associated DTD and FOSI have been updated to incorporate the changes. The rescission date and statement will continue to appear in paragraph 3 of SGML-tagged TCTO files until the DTD and FOSI are updated.

- |           |  |
|-----------|--|
| 3.5.2g    | Add new line: “g. Rescission Date (see 3.5.2.6.1)” Renumber following paragraphs to “h” through “l”.   |
| 3.5.2.6   | Change last sentence to read: : “The year, month, and day shall be in the YYYYMMDD format (see Figures 1 through 6).”  |
| 3.5.2.6.1 | (Added) “ <u>Rescission Date</u> . The Contractor shall enter the TCTO rescission date in the upper right corner of the first page immediately below the TCTO issue date. The rescission date will be specified on the Air Force Materiel Command (AFMC) Form 873 (see 6.5). The date will be in the YYYYMMDD format.” |
| 3.5.2.9.4 | Change “AFMC/AFCC” to “AFMC/AFCA/AFSPC”  |
| 6.2.j     | Change to read: “Issue and Rescission dates (see 3.5.2.6)”   |
| 6.2.y     | Delete.  |

<b>OTHER COMMENTS:</b> Contact DCMA Transportation on ALL "DCMA Administered" contracts prior to shipment for shipping instructions using the DCMA Shipment Instruction Request (SIR) eTool System, at <a href="http://www.dcmsa.mil">http://www.dcmsa.mil</a> for ALL FOB: Origin, Foreign Military Sales (FMS), and FOB: Destination OCONUS/Export movements to obtain the appropriate DOD regulatory clearances, shipping documentation and instructions from your cognizant DCMA Transportation Office. If you are new to DCMA, and do not already have a SIR eTool account, you will first need to request an account via DCMA External Web Access Management (EWAM) application which can be accessed at <a href="http://www.dcmsa.mil">http://www.dcmsa.mil</a> . If you need additional assistance, email DCMA Transportation Group at: <a href="mailto:Transportation.Division@dcma.mil">Transportation.Division@dcma.mil</a> . Do not move any freight to a water or aerial port prior to contacting DCMA or it will become frustrated.

#### ADDITIONAL INFORMATION

##### ⦿ Packaging and Marking of Hazardous Material

Hazardous materials shall be prepared for shipment in accordance with the following applicable regulations for the individual shipment hazard, ultimate destination, and mode of transportation: (a) Code of Federal Regulations (CFR) Title 29, Part 1910.1200; (b) Code of Federal Regulations (CFR) Title 49; (c) Air Force Manual (AFMAN) 24-204\_IP, Preparing Hazardous Materials for Military Air Shipment; (d) International Civil Aviation Organization (ICAO) Technical Instructions for the Safe Transport of Dangerous Goods by Air; and (e) International Maritime Dangerous Goods (IMDG) Code.

##### ⦿ Packaging Data (Coded and/or Special Packaging Instructions)

The Contractor shall provide packaging data in accordance with DD Form 2326, Preservation and Packing Data, and/or DD Form 2169, Special Packaging Instructions. MIL-STD-2073-IE, Standard Practice for Military Packaging, identifies the applicable data elements. DI-PACK-80120C, Preservation and Packing Data, and DI-PACK-80121C, Special Packaging Instructions, apply.

##### ⦿ Shipping Container Marking

Shipping containers shall be marked meeting the following criteria: (a) MIL-STD-129R, Military Marking For Shipment and Storage. (b) Bar code format shall conform to bar code symbology Format 3 of 9, Code 39 as specified in MIL-STD-129R. (c) Additional marking and/or bar coding requirements exceeding those of MIL-STD-129R, e.g., unit serial numbers, original equipment manufacturer's (OEM) name, or OEM model number, as specified on the AFMC Form 158.

##### ⦿ Marking of Warranted Items

The contractor shall mark the items or otherwise furnish notice with the items to show the existence of the warranty, its substance and duration; and the name, address, and telephone number of the person to notify if the items are defective in accordance with FAR 46.706(b)(5), Warranty Terms and Conditions.

##### ⦿ Wood Packaging Material ISPM 15

All wood packaging must comply with the latest revision of International Standards for Phytosanitary Measures (ISPM) Number 15.  
<https://www.ippc.int/index.php?id=110589&L=0>

##### ⦿ Specification Commercial Packaging (ASTM D3951)

(a) Items shall be packaged in accordance with American Society for Testing and Materials (ASTM) Specification D3951-10, Standard Practice for Commercial Packaging. Individual shipments exceeding 150 pounds, 108 inches in length, or 130 inches in girth plus length shall be packaged on skidded crates or palletized to allow handling by forklift. (b) The exterior container shall be marked (readable from 24 inches): "ASTM D3951-NOT FOR OUTSIDE STORAGE."
