

**EXPLANATORY STATEMENT SUBMITTED BY MR. FRELINGHUYSEN,
CHAIRMAN OF THE HOUSE COMMITTEE ON APPROPRIATIONS
REGARDING H.R.**

The following is an explanation of the effects of this Act, which makes appropriations for the Department of Defense for fiscal year 2017. Unless otherwise noted, references to the House and Senate reports are to House Report 114-577 and Senate Report 114-263, respectively. The language contained in the House and Senate reports warrant full compliance and carry the same weight as language included in this explanatory statement unless specifically addressed to the contrary in the bill or this explanatory statement. While repeating some language from the House or Senate reports for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119), and by the Budget Enforcement Act of 1990 (Public Law 101-508), the terms “program, project, and activity” for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2017, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action.

The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term “program, project, and

activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget request for fiscal year 2018, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M-1” and the “O-1” which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2018.

REPROGRAMMING GUIDANCE

The Secretary of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). For operation and maintenance accounts, the Secretary of Defense shall continue to follow the reprogramming guidelines specified in the conference report accompanying H.R. 3222, the Department of Defense Appropriations Act, 2008. The dollar threshold for reprogramming funds shall remain at \$10,000,000 for military personnel; \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I and II and quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of

Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a military personnel (M-1), an operation and maintenance (O-1), a procurement (P-1), or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or items for which funding is specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

BUDGET LIAISON SUPPORT TO THE HOUSE AND SENATE
DEFENSE APPROPRIATIONS SUBCOMMITTEES

The House and Senate Defense Appropriations Subcommittees rely heavily on offices within the Comptroller organizations of the military departments and the Office of the Secretary of Defense to conduct their oversight responsibilities and make funding recommendations for the Department of Defense. Established in the 1970s in accordance with a recommendation of the Blue Ribbon Defense Panel, these offices facilitate the appropriate flow of information between the House and Senate Defense Appropriations Subcommittees and the Comptroller of the respective department or agency. In the early 1990s, the House and Senate Defense Appropriations Subcommittees restated the support these organizations provide to the Committees and noted that “while the various offices of legislative affairs offer great assistance to DoD and the Congress, they do not provide the expertise and the direct relationship to the Comptroller organizations which are essential to the effective communication between DoD and the Committees on Appropriations.”

Further, the explanatory statement accompanying the Department of Defense Appropriations Act, 2016 echoed the imperative to maintain the existing liaison structure to achieve the highest level of communication and trust between the Department of Defense and the House and Senate Defense Appropriations Subcommittees.

The House and Senate Defense Appropriations Subcommittees repeat this support for the budget liaison organizations and reiterate previously stated concerns that efforts to

incorporate these organizations into the military and Office of the Secretary of Defense legislative affairs offices would be deleterious to the appropriations process and to the utility of the budget liaison operation. Therefore, the agreement retains a provision in title II of this Act from previous years that prohibits the use of funds in this Act to plan or implement the consolidation of a budget or appropriations liaison office of the Office of the Secretary of Defense, the office of the Secretary of a military department, or the Service headquarters of one of the Armed Forces into a legislative affairs or legislative liaison office.

CYBERSPACE ACTIVITIES

The agreement fully funds the fiscal year 2017 base budget requirement of \$6,734,000,000 for the Army, Navy, Marine Corps, Air Force, and the defense agencies cyberspace activities, an increase of \$992,000,000 over the fiscal year 2016 enacted level.

While the Service and defense-wide budget justification material, as well as the Department of Defense classified cyberspace activities information technology investments budget justification materials, provide some level of detail, much of the funding is encompassed within larger programs and funding lines, which limits visibility and congressional oversight of requested funding for cyberspace activities specifically.

Beginning in fiscal year 2018, the Department of Defense Chief Information Officer is directed to modify the cyberspace activities exhibit in order to provide increased visibility and clarity into the cyberspace activities funding requirements and changes to funding requirements from the previous fiscal year enacted levels, to segregate civilian and military pay, and to provide a crosswalk between the cyberspace activities justification books and the Services and defense-wide budget justification material.

Further, in order to provide additional clarity and to enhance oversight, the Department of Defense Chief Information Officer, in coordination with the Under Secretary of Defense (Comptroller) and the Service Secretaries, is directed to conduct a review of the budget justification material and provide a proposal to the House and Senate Appropriations Committees not later than September 1, 2017, for how to clearly delineate the Department of Defense cyber investment activities requested in the operation and maintenance, procurement, and research, development, test and evaluation accounts as part of the budget justification material beginning with the fiscal year 2019 budget submission. The Under Secretary of Defense (Comptroller) and the Chief Information Officer are encouraged to consider establishing a unique cyber sub-activity group for operation and maintenance accounts and individual cost codes, projects, or program elements for procurement and research, development, test and evaluation accounts as part of this review.

The Department of Defense cyberspace activities table provided shows the amount of funding provided to each Service and defense-wide account in fiscal years 2016 and 2017. Funding appropriated therein may be used only for cyberspace activities as defined by the classified cyberspace activities information technology investment budget request for fiscal year 2017. The Secretary of Defense is directed to use normal prior approval reprogramming procedures to transfer funding out of any operation and maintenance, procurement, or research, development, test and evaluation accounts as identified in the table titled "Department of Defense Cyberspace Activities" for any purpose other than cyberspace activities. The Department of Defense Chief Information Officer shall submit to the House and Senate Appropriations Committees two reports not later than May 30, 2017, and November 30, 2017, which provide the mid-year and end of fiscal year financial obligation and execution data for cyberspace activities of each year.

This language replaces the language included under the heading "Cyberspace Operations" in House Report 114-577.

MILITARY PERSONNEL OVERVIEW

The agreement provides the resources required for an additional 24,000 active forces and 12,000 selected reserve forces, as authorized by current law and above the requested end strength levels, in order to meet operational needs for fiscal year 2017. The agreement also provides the funding necessary to support a 2.1 percent pay raise for all military personnel, as authorized, effective January 1, 2017.

REPROGRAMMING GUIDANCE FOR MILITARY PERSONNEL ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2017 appropriations accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' military personnel accounts between budget activities in excess of \$10,000,000.

MILITARY PERSONNEL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

MILITARY BANDS

Military bands honor and celebrate warfighters, promote patriotism during community events, inspire servicemembers, and enhance efforts to recruit and retain

troops. Band engagements play an important support role for national security and joint operations, opening diplomatic doors for political and military discussions while building trust and confidence with foreign military and civilian authorities. However, the activities of military bands must not detract from the core competencies of the military. The Secretary of Defense should review opportunities to ensure that only the critical functions of military bands are supported while minimizing impacts on funding for essential readiness, military personnel, modernization, and research and development activities.

REPROGRAMMING GUIDANCE FOR OPERATION AND MAINTENANCE ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2017 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities in excess of \$15,000,000. In addition, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget sub-activities:

Army:

- Maneuver units
- Modular support brigades
- Land forces operations support
- Force readiness operations support
- Land forces depot maintenance
- Base operations support
- Facilities sustainment, restoration, and modernization

Navy:

- Mission and other flight operations
- Aircraft depot maintenance
- Mission and other ship operations
- Ship depot maintenance
- Facilities sustainment, restoration, and modernization

Marine Corps:

- Depot maintenance
- Facilities sustainment, restoration, and modernization

Air Force:

Primary combat forces
Combat enhancement forces
Operating forces depot maintenance
Facilities sustainment, restoration, and modernization
Mobilization depot maintenance
Training and recruiting depot maintenance
Administration and service-wide depot maintenance

Air Force Reserve:

Depot maintenance

Air National Guard:

Depot maintenance

Additionally, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget sub-activity:

Operation and Maintenance, Army National Guard:

Other personnel support/recruiting and advertising

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures.

OPERATION AND MAINTENANCE SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the

explanatory statement. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

READINESS

The agreement provides additional readiness funds for the Services within the operation and maintenance accounts. This funding shall be used only to improve military readiness, including increased training, depot maintenance, and base operations support. None of the funding provided may be used for recruiting, marketing, or advertising programs. The funding provided is a congressional special interest item. The Secretary of Defense and the Service Secretaries are directed to submit a detailed spending plan by sub-activity group to the House and Senate Appropriations Committees not less than 30 days prior to the obligation of these funds. These transfers may be implemented 30 days after congressional notification unless an objection is received from either the House or Senate Appropriations Committees.

ENERGY INDEPENDENCE AND SECURITY ACT

The agreement does not include a provision included in the House-passed version of H.R. 5293 that referenced the Energy Independence and Security Act of 2007. It is noted that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Defense and the Service Secretaries should work to ensure that costs associated with fuel purchases necessary to carry out their respective missions should be minimized to the greatest extent possible.

CIVILIAN PAY RAISE

Although the agreement does not include additional funds specifically for the civilian pay increase from 1.6 percent to 2.1 percent, sufficient funding is available within the appropriations accounts to fully fund the increase due to assets created by the civilian hiring freeze and the extended length of H.R. 2028, the Further Continuing and Security Assistance Appropriations Act, 2017.

AQUEOUS FILM FORMING FOAM

The use of the fire-extinguishing agent Aqueous Film Forming Foam (AFFF) by the Department of Defense has been linked to elevated levels of perfluorinated chemicals (PFCs) on military bases and in neighboring communities. According to the Centers for Disease Control and Prevention and the National Institutes of Health, PFCs have adverse impacts on human health. The Navy and Air Force have begun remediation of PFC contamination. The Secretary of Defense is encouraged to require all Services to establish procedures for prompt and cost-effective remediation. In addition, the Secretary of Defense is directed to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act that assesses the number of formerly used and current military installations where AFFF was or is currently used and the impact of PFC contaminated drinking water on surrounding communities. The report should also include plans for prompt community notification of such contamination, when the contamination was detected, and the procedures for timely remediation.

READINESS COST ASSESSMENT TOOL

The recently published Naval Aviation Vision 2016-2025 offered strong support for the Readiness Cost Assessment Tool, which is the first phase of the Proficiency Optimization initiative. In lieu of the reporting requirement in House Report 114-577, the Secretary of the Navy is directed to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act that describes the Naval Aviation Enterprise Proficiency Optimization initiative, the current funding profile, and the potential to accelerate or streamline the program strategy.

BACKGROUND INVESTIGATION SYSTEMS

The agreement fully funds the budget request for the Department of Defense to develop, replace, and sustain federal government security and suitability background investigation technology systems. In lieu of the language included under this heading in House Report 114-577, the Director of the Defense Information Systems Agency is directed to submit a progress report to the congressional defense committees not later than 90 days after the enactment of this Act, and semiannually thereafter, that includes the information technology development and implementation plan, associated timeline with milestones, costs for each phase of implementation, anticipated outyear costs, personnel structure, and any other significant issues related to the establishment and sustainment of a new federal government background information technology system housed within the Department of Defense.

NATIONAL GUARD STATE PARTNERSHIP PROGRAM LANGUAGE ENHANCEMENT PROGRAM

For more than twenty years, the National Guard State Partnership Program (SPP) has been successfully building unique security relationships with more than 75 nations around the globe. To build on the success of this program, the agreement recommends that the Chief of the National Guard Bureau encourage the enhancement of individual language skills and prioritize language school appointments of soldiers and airmen within the program to help further strengthen these international relationships. Additionally, servicemembers of the National Guard that participate in, and are from states with units assigned to state partnership activities should strive to attend language schools, both defense-sponsored and otherwise; obtain computer-assisted language-learning software; and use international visits through the SPP as a means of language skill immersion.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds shall remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

PROCUREMENT SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement.

JOINT STRIKE FIGHTER BUDGET JUSTIFICATIONS AND CONTRACTING

Throughout the fiscal year 2017 budget review process, the Joint Strike Fighter (JSF) Joint Program Office provided insufficient justification and incomplete information in an untimely manner. It is imperative that requested information is received promptly for proper congressional oversight of this major defense acquisition program.

It is understood that the Secretary of Defense is reviewing potential alternative management structures for the JSF program as directed by the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328). This review will provide an opportunity to improve communication between the JSF Program Executive Officer (PEO), the Services, and the congressional defense committees to ensure the program’s funding requirements are fully understood, communicated, and justified.

Additionally, there is concern that the number of F-35s enacted in annual Department of Defense Appropriations Acts are not being placed on contract by the JSF PEO in a timely manner. Four F-35s included in the Department of Defense Appropriations Act, 2015 and 13 F-35s included in the Department of Defense Appropriations Act, 2016 were not part of their respective low rate initial production (LRIP) contracts due to the PEO’s contracting strategy. Specifically, only four F-35Cs

were included on LRIPs 9 and 10, rather than the ten F-35Cs enacted in the Department of Defense Appropriations Acts, 2015 and 2016, impeding production efficiencies. The agreement directs the JSF PEO to use a contracting approach that would award all aircraft included in each Department of Defense Appropriations Act on the respective production contract for that fiscal year. The agreement includes funding for 74 F-35 aircraft. The JSF PEO is directed to brief the congressional defense committees not later than 45 days after the enactment of this Act on the contracting strategy for these aircraft.

UH-72 LAKOTA LIGHT UTILITY HELICOPTER

The agreement provides \$187,000,000 to procure 28 UH-72 Lakota Light Utility Helicopters for the Army in support of ongoing mission requirements at the Army Aviation Center of Excellence at Fort Rucker, the Combat Training Centers, and the Army Test and Evaluation Center. The agreement notes that this investment is consistent with previous appropriations and was included in the Army's unfunded priority list. The Secretary of the Army is encouraged to request funding for UH-72 Lakota Light Utility Helicopters to address ongoing mission requirements in future budget submissions.

DDG-51 FLIGHT IIA DESTROYERS

The Navy currently is procuring DDG-51 Flight IIA destroyers under a fiscal year 2013 to fiscal year 2017 multi-year procurement shipbuilding contract awarded in June 2013, as authorized by section 8010 of Public Law 113-6. Additionally, the Navy is addressing increasing ballistic and cruise missile threats through the development and acquisition of an Air and Missile Defense Radar, which is planned for integration on the DDG-51 class of ships through an engineering change proposal, resulting in a new Flight III configuration. However, a recent Government Accountability Office report (GAO 16-613) details concerns regarding a lack of sufficient acquisition and limited detail design knowledge to support the Navy's current Flight III procurement strategy. Further concerns remain regarding the full costs of DDG-51 Flight III destroyers. Therefore, the Secretary of the Navy should award and complete the additional DDG-51 ship, fully funded in fiscal years 2016 and 2017, as an additional DDG-51 Flight IIA ship. The Secretary of the Navy is directed to expeditiously award this ship construction contract.

POLAR ICEBREAKER RECAPITALIZATION PROJECT

The Navy and the Coast Guard are collaborating to refine requirements and an acquisition strategy for procurement of an affordable polar icebreaker. This collaboration continues to refine program costs and requirements in an effort to award a detailed design and construction contract for the lead ship in fiscal year 2019. The agreement supports this effort and provides \$150,000,000 in advance procurement funding to buy long-lead time material for the program's initial ship. The Coast Guard is encouraged to budget for follow-on efforts.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds shall remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement.

JOINT STRIKE FIGHTER FOLLOW-ON MODERNIZATION

The Joint Strike Fighter Program Executive Officer is directed to comply with the reporting requirement included under the heading “Joint Strike Fighter Follow-on Modernization” in Senate Report 114-263. The Secretary of Defense is not required to comply with the reporting requirement included under the heading “Joint Strike Fighter Follow-on Development” in House Report 114-577.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

The agreement on items addressed by either the House or the Senate is as follows:

~~(INSERT COMPUTER TABLE)~~

Insert 68A-P

~~(INSERT PROJECT LEVEL TABLE)~~

STANDARD MISSILE-6

The agreement includes \$120,561,000, as requested, for Standard Missile-6 (SM-6) improvements. It is understood that the Navy's top priority for the SM-6 research, development, test and evaluation program in fiscal year 2017 is the completion of program of record flight tests and achieving full operational capability for the SM-6 Block I. The Secretary of the Navy is encouraged to prioritize funding allocations accordingly.

Insert 69A-0

~~(INSERT PROJECT LEVEL TABLE)~~

LONG RANGE STRIKE BOMBER

The Inspector General of the Department of Defense is directed to conduct an evaluation and submit a report as described under this heading in Senate Report 114-263 not later than 180 days after the enactment of this Act. In addition, the agreement designates the long range strike bomber program as a congressional special interest item for purposes of transfer of funds and prior approval reprogramming procedures.

JOINT SURVEILLANCE TARGET ATTACK RADAR SYSTEM RECAPITALIZATION

The agreement includes a provision that prohibits the obligation or expenditure of funds provided for the Joint Surveillance Target Attack Radar System (JSTARS) recapitalization program on pre-milestone B activities after March 31, 2018. The

agreement fully funds the request of \$128,019,000 for the program, of which only \$68,000,000 is required to conclude sufficient progress on radar risk reduction activities. The Secretary of the Air Force should apply the remaining funds to other risk reduction activities and the source selection process to accelerate entry into the engineering and manufacturing development (EMD) phase of the program.

The Secretary of the Air Force and the Under Secretary of Defense (Acquisition, Technology, and Logistics) are directed to provide a briefing to the congressional defense committees not later than 90 days after the enactment of this Act on a compressed acquisition schedule and funding profile for the JSTARS recapitalization program to achieve initial operational capability and full operational capability as early as possible. The briefing shall detail the schedule for the EMD phase including source selection and contract award for EMD.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION,
DEFENSE-WIDE

The agreement on items addressed by either the House or the Senate is as follows:

RAPID PROTOTYPING PROGRAM

The agreement includes \$100,000,000 for a rapid prototyping program. The Secretary of Defense is directed to brief the House and Senate Appropriations Committees on a plan for execution 20 days prior to transfer or obligation of any funds for this program.

REPROGRAMMING GUIDANCE FOR THE DEFENSE HEALTH PROGRAM

Concerns remain regarding the transfer of funds from the In-House Care budget sub-activity to pay for contractor-provided medical care. To limit such transfers and improve oversight within the Defense Health Program operation and maintenance account, the agreement includes a provision which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The provision and accompanying explanatory statement language should not be interpreted as limiting the amount of funds that may be transferred to the In-House Care budget sub-activity from other budget sub-activities within the Defense Health Program. In addition, funding for the In-House Care budget sub-activity continues to be designated as a congressional special interest item. Any transfer of funds from the In-House Care budget sub-activity into the Private Sector Care budget sub-activity or any other budget sub-activity requires the Secretary of Defense to follow prior approval reprogramming procedures for operation and maintenance funds.

The Secretary of Defense is directed to provide written notification to the congressional defense committees of cumulative transfers in excess of \$10,000,000 out of the Private Sector Care budget sub-activity not later than fifteen days after such a transfer. Furthermore, the Secretary of Defense is directed to provide a report to the congressional defense committees not later than 30 days after the enactment of this Act that delineates transfers of funds in excess of \$10,000,000, and the dates any transfers occurred, from the Private Sector Care budget sub-activity to any other budget sub-activity groups for fiscal year 2016.

The Assistant Secretary of Defense (Health Affairs) is directed to provide quarterly reports to the congressional defense committees on budget execution data for all of the

Defense Health Program budget activities and to adequately reflect changes to the budget activities requested by the Services in future budget submissions.

PEER-REVIEWED CANCER RESEARCH PROGRAM

The agreement provides \$60,000,000 for the peer-reviewed cancer research program to research cancers not addressed in the breast, prostate, ovarian, kidney, and lung cancer research programs.

The funds provided in the peer-reviewed cancer research program are directed to be used to conduct research in the following areas: bladder cancer, brain cancer, colorectal cancer, immunotherapy, listeria-based regimens for cancer, liver cancer, lymphoma, melanoma and other skin cancers, mesothelioma, neuroblastoma, pancreatic cancer, pediatric brain tumors, stomach cancer, and cancer in children, adolescents, and young adults.

The reports directed under this heading in House Report 114-577 and Senate Report 114-263 are still required.

PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The agreement provides \$300,000,000 for a peer-reviewed medical research program. The Secretary of Defense, in conjunction with the Service Surgeons General, is directed to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to the following areas: acute lung injury, antimicrobial resistance, arthritis, burn pit exposure, chronic migraine and post-traumatic headache, congenital heart disease, constrictive bronchiolitis, diabetes, diarrheal diseases, dystonia, early trauma thermal regulation,

eating disorders, emerging infectious diseases, epidermolysis bullosa, focal segmental glomerulosclerosis, Fragile X, Guillain-Barre syndrome, hepatitis B and C, hereditary angioedema, hydrocephalus, immunomonitoring of intestinal transplants, inflammatory bowel diseases, influenza, integrative medicine, interstitial cystitis, malaria, metals toxicology, mitochondrial disease, musculoskeletal disorders, nanomaterials for bone regeneration, non-opioid pain management, pancreatitis, pathogen-inactivated dried cryoprecipitate, polycystic kidney disease, post-traumatic osteoarthritis, pulmonary fibrosis, respiratory health, Rett syndrome, rheumatoid arthritis, scleroderma, sleep disorders, spinal muscular atrophy, sustained-release drug delivery, tinnitus, tuberculosis, vaccine development for infectious disease, vascular malformations, and women's heart disease. The additional funding provided under the peer-reviewed medical research program shall be devoted only to the purposes listed above.

ELECTRONIC HEALTH RECORD SYSTEM

Concerns remain with the progress being made by the Departments of Defense and Veterans Affairs to fully develop, procure, and deploy an interoperable electronic health record solution. The two systems must be completely and meaningfully interoperable, and the Under Secretary of Defense (Acquisition, Technology, and Logistics) is encouraged to focus on the overall goal of seamless compatibility between the two Departments' electronic health record systems.

For the necessary oversight of this important program, the Program Executive Officer (PEO) for the Defense Healthcare Management Systems (DHMS) is directed to provide quarterly reports to the congressional defense committees and the Government Accountability Office on the cost and schedule of the program, to include milestones, knowledge points, and acquisition timelines, as well as quarterly obligation

reports. These reports should also include any changes to the deployment timeline, including benchmarks, for full operating capability; any refinements to the cost estimate for full operating capability and the total lifecycle cost of the program; an assurance that the acquisition strategy will comply with the acquisition rules, requirements, guidelines, and systems acquisition management practices of the federal government; the status of the effort to achieve interoperability between the electronic health record systems of the Departments of Defense and Veterans Affairs, including the scope, cost, schedule, mapping to health data standards, and performance benchmarks of the interoperable record; and the progress toward developing, implementing, and fielding the interoperable electronic health record throughout the two Departments' medical facilities.

The PEO DHMS is directed to continue briefing the House and Senate Appropriations Committees on a quarterly basis, coinciding with the report submission. Given that full deployment of the new electronic health record is not scheduled until fiscal year 2022, the Department of Defense is expected to continue working on interim modifications and enhancements to the current system to improve interoperability in the near-term. Additionally, the PEO DHMS is directed to provide written notification to the House and Senate Appropriations Committees prior to obligating any contract, or combination of contracts, for electronic health record systems in excess of \$5,000,000.

Additionally, the Director of the Interagency Program Office is directed to continue to provide quarterly briefings on standards development, how those standards are being incorporated by the two Departments, and the progress of interoperability to the House and Senate Appropriations Subcommittees for Defense and Military Construction, Veterans Affairs, and Related Agencies. In an effort to ensure government-wide accountability, the PEO DHMS, in coordination with the appropriate personnel of the Department of Veterans Affairs, is directed to provide the Federal Chief Information

Officer of the United States with monthly updates on progress made by the two Departments to reach interoperability and modernize their respective electronic health records.

The agreement includes a number of reporting requirements related to contingency operations and building capacity efforts. The Secretary of Defense is directed to continue to report incremental costs for all named operations in the Central Command Area of Responsibility on a quarterly basis and to submit, also on a quarterly basis, commitment, obligation, and expenditure data for the Afghanistan Security Forces Fund, the Counter-Islamic State of Iraq and the Levant Train and Equip Fund, and for all security cooperation programs funded under the Defense Security Cooperation Agency in the Operation and Maintenance, Defense-Wide account.

The agreement eliminates the Cost of War reporting requirement for detailed monthly obligation and expenditure data by appropriation account. This reporting requirement is burdensome for the Department of Defense and the information provided is either duplicative of information available through other means or is unnecessary for effective budget oversight.

NATIONAL GUARD AND RESERVE EQUIPMENT

The agreement provides \$750,000,000 for National Guard and Reserve Equipment. Of that amount \$247,500,000 is designated for the Army National Guard, \$247,500,000 for the Air National Guard, \$105,000,000 for the Army Reserve, \$105,000,000 for the Air Force Reserve, \$37,500,000 for the Navy Reserve, and \$7,500,000 for the Marine Corps Reserve.

This funding will allow the reserve components to procure high priority equipment that may be used for combat and domestic response missions. Current reserve component equipping levels are among the highest in recent history and the funding provided by the agreement will help ensure component interoperability and sustained reserve component modernization.

The Secretary of Defense is directed to ensure that the account be executed by the Chiefs of the National Guard and reserve components with priority consideration given to the following items: acoustic hailing devices including hail and warning escalation of force systems, advanced cargo handling systems for CH-47, air broadband for C-12, airborne sense and avoid systems for remotely piloted aircraft, all-digital radar warning receivers, chemical biological protective shelters, combat uniforms and cold weather protective clothing, common access card for remote access virtual private network with pre-tunnel authentication, computer-assisted language learning software, crashworthy ballistically tolerant auxiliary fuel systems, integrated facial protection components for standard issue helmets, large aircraft infrared countermeasures, advanced targeting pods, electromagnetic in-flight propeller balance systems, electro-optical infrared sensors, frequency hopping multiplexers, handheld and manpack and mid-tier networking vehicular radios, handheld explosives and chemical weapons detection capabilities, HMMWV rollover mitigation and control technologies, lightweight wide-area motion

imagery systems, modular small arms and self-contained ranges, joint threat emitters, mandible protection, Marine Corps tactical radio digital communications, the mobile user objective system, modular fuel systems, palletized loading systems, multi-temperature refrigerated container systems, near infrared aiming and illumination systems, out of band infrared pointer and illuminator systems, radiac sets, semi-trailers, unstabilized gunnery crew trainer and small arms simulation trainers, and wireless mobile mesh self-healing network systems.

TOTAL, JOINT IMPROVISED-THREAT FUND	408,272	339,472

JOINT IMPROVISED-THREAT DEFEAT FUND

The fiscal year 2017 budget request includes \$408,272,000 in Overseas Contingency Operations funding for the Joint Improvised-Threat Defeat Fund. To preserve the essential joint capabilities of the Joint Improvised-Threat Defeat Organization (JIDO) and eliminate any duplication with Service capabilities, the agreement recommends transferring \$62,800,000 to the Operation and Maintenance, Defense-Wide account in title IX.

The budget request proposed consolidating the sub-accounts under the appropriation into a single account titled Rapid Acquisition and Threat Response. This flexibility would allow for quick reaction changes in spending; however, it would prevent the congressional defense committees from having any insight into why or when these funding changes occur. Therefore, the agreement provides the following funding levels for JIDO programs: \$101,286,000 for Rapid Capability Delivery; \$200,886,000 for Assist

Situational Understanding; and \$37,300,000 for Enable Department of Defense Responsiveness. The Director of the JIDO is directed to provide quarterly reports to the congressional defense committees should funding be shifted between the accounts not later than 15 days after the end of the fiscal quarter.

OFFICE OF THE INSPECTOR GENERAL

The agreement provides \$22,062,000 for the Office of the Inspector General.

GENERAL PROVISIONS – THIS TITLE

The agreement for title IX incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed in the agreement are as follows:

The agreement retains a provision proposed by the Senate which provides for special transfer authority within title IX. The House bill contained a similar provision.

The agreement retains a provision proposed by the Senate which provides funds for logistical support to allied forces supporting military and stability operations in Afghanistan and to counter the Islamic State of Iraq and the Levant. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which provides funds for the Office of Security Cooperation in Iraq. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House which provides security assistance to the Government of Jordan. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House which prohibits the use of the Counter-ISIL Train and Equip Fund to procure or transfer man-portable air defense systems. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which provides assistance and sustainment to the military and national security forces of Ukraine. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House related to the replacement of funds for items provided to the Government of Ukraine. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits the use of assistance and sustainment to the military and national security forces of Ukraine to procure or transfer man-portable air defense systems. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which provides funds to the Department of Defense to improve intelligence, surveillance, and reconnaissance capabilities. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the Senate which prohibits the use of funds to transfer additional C-130 aircraft to Afghanistan until the Department of Defense conducts a review of the country's medium airlift requirements. The House bill contained no similar provision.

(RESCISSIONS)

The agreement modifies a provision proposed by the House recommending rescissions and provides for the rescission of \$819,000,000. The Senate bill contained a similar provision. The rescissions agreed to are:

2016 Appropriations:

Operation and Maintenance, Defense-Wide:

DSCA Coalition Support Fund.....\$300,000,000
